

THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 8.

BLAIRMORE, ALBERTA, THURSDAY, FEBRUARY 19, 1925.

\$2.00 PER ANNUM

CROWS' NEST CHAPTER I.O.D.E.

Crows' Nest Chapter, I.O.D.E., celebrated the twenty-fifth anniversary of the Order by a birthday party in the parlor of the Greenhill hotel on Friday evening last.

The Regent of the Chapter, Mrs. F. M. Pinkney, opened the programme with a few fitting remarks on the origin of the order.

Solos were rendered by Mrs. A. M. Elliott, of Calgary, Mrs. L. L. Morgan and Mrs. S. Bannan, who were ably accompanied by Mrs. D. G. Mackenzie. Mr. R. G. Foot gave a radio programme on a machine kindly loaned by Mr. L. L. Morgan and splendid music was heard from the coast cities, also Calgary and Edmonton. A number of violin selections were rendered by Mr. M. E. Muscovich, of Lethbridge, who was a guest at the hotel, all of which were very much appreciated. Tea was served at the close of the programme.

The ladies extend their hearty thanks to Mr. G. L. Stevens, manager of the hotel, who assisted in every way in making the entertainment a success.

OUR SENTIMENTS, TOO!

The protest that is being lodged against the Bellevue club on account of Talbot's residence in the States may make it a play-off between Coleman and Blairmore. It seems, however, that a protest of this nature should have been brought to light at the first of the season or else buried at this stage of the game—Lethbridge Herald.

The Carnegie foundation has given \$100,000 towards the proposed Blairmore Catholic College.

ELKS' CARNIVAL

QUEEN CONTEST

Following is the standing of candidates as we go to press, as indicated by returns made:

Mary Aschacher	16,000
Ruth Corkila	34,000
Grace Penman	34,000
Denise Parlad	40,000
Marietta Wheatley	8,000

The grand carnival takes place on Tuesday night next, particulars of which are given on posters.

A. A. H. A. TO MEET IN

BLAIRMORE TOMORROW

A meeting of the executive of the Alberta Amateur Hockey Association will be held here tomorrow evening. Dr. Sanderson, president, and E. D. Batrum, secretary, will be present.

A number of questions will receive consideration by the executive, including the pending protest of Coleman against Bellevue in connection with the qualification of Talbot, the Bellevue goalie.

BLAIRMORE SENIORS TO PLAY CALGARY CANADIANS

The Blairmore senior hockey team have received an invitation to go to Calgary to play an exhibition game with the famous Calgary Canadians tomorrow night. We understand the boys leave on the morning local. All expenses are guaranteed by Calgary.

"THE PRIVATE SECRETARY"

Those taking part in the three-act farcical comedy, to be staged soon under the auspices of the Blairmore Elks are making splendid progress. Already rehearsals have proved the troupe capable of going through the first and second acts to perfection.

Quite an array of good talent has been mustered, and we would venture to state that when the play is staged here, the patronizing public will admit that nothing better has ever been produced by imported talent. In the various roles, some of the characters are particularly outstanding and will bring down the house by their admirable impersonations.

Those taking part include: Misses Douglas and Rae, Mrs. Rhynas, Mrs. Harper; Messrs. Pinkney, Bird, Upton, Devine, Thomas, Stevens, Wootin and Brehler.

In all likelihood the company will proceed to Fernie or Michel for their first appearance, probably within the next three weeks.

ST. LUKE'S ANGLICAN CHURCH

The Rev. W. T. H. Cripps, of St. Mary's church, Lethbridge, will hold services at Blairmore on Sunday the 22nd inst. Matins and Holy Communion at 11 a.m.

Alfred Cummings and Geo. Quail were on Monday appointed a committee from the Rotary Club to get busy on the swimming pool proposition and stir up the general committee who are supposed to have the matter in hand. At a public meeting held last summer a committee was appointed to choose a site and get the work going, but owing to the unsatisfactory condition of the industrial situation it was not thought advisable to proceed with the work. However, the site was selected and as the industrial situation has cleared there is no reason in the world why a start should not be made just as soon as the frost is out of the ground. The public are behind this worthy and badly needed community proposition and hope that there will be no further delay in the matter.—Fernie Free Press.

Grand Forks' Oddfellows are planning on the erection of a new hall and store, to cost in the neighborhood of \$6,000.

DEATH OF W. L. OUMETTE

An outstanding figure in the social and commercial life of this section of the Crows' Nest Pass was removed through the rather sudden death on Friday morning last of Mr. W. L. Oumette, prominent general merchant, of Coleman, who passed away following a very critical operation.

Up to a week previous Mr. Oumette had been in apparent enjoyment of good health, so much so that he was able to take his place in a curling game.

The whole district was cast into gloom when the news of his death spread around.

Mr. Oumette was about seventy years of age and is survived by a son, Charles, at Coleman, and a daughter, Mrs. Murphy, of Nelson, both of whom were at hand when the end came.

A funeral service was held on Sunday evening at the Institutional church, Coleman, when hundreds of people thronged the edifice to pay tribute to a departed respected citizen. About one hundred members of the Masonic Order, with which deceased had for a number of years been associated, were present. The pastor, Rev. D. K. Allan, paid high tribute to the sterling worth and character of the deceased in the course of a lengthy and able discourse. The choir sang an appropriate anthem, entitled: "Some Day We'll Understand."

The remains were taken to the C. P. R. depot and shipped to Red Deer, where on Monday afternoon they were laid to rest in the family plot, beside those of his wife, who had predeceased him a number of years ago.

Mr. C. Oumette and Mrs. Murphy accompanied the remains, the former returning to Coleman by Wednesday morning's train.

Funeral tributes were many and beautiful, among them those of the family, the Merchants, Summit Lodge, Chinook Lodge, the congregation, Mr. A. Cameron, the Women's Institute, Minerva Chapter O.E.S.

The late Mr. Oumette was for years connected with the session and managing board of the Institutional church.

At Melbourne, Australia, President Walsh, of the Seamen's Union, was found guilty of inciting dock workers to strike, and of inciting officials of the Federation of Waterside Workers to encourage the strike. He was fined fifty guineas. Justice of this description would work wonders on the American continent.

Tenders For Roadwork

PURSUANT to the requirements of the Canada Highways Act, sealed tenders will be received by the undersigned up to 12 o'clock noon, standard time, of Friday, February 27th, for the following:

Project 2 Section 'E' Sub-Section A - Walsh-Crownest Main Highway. In Section 5, Tp. 8; Rge. 5; west of the 5th meridian. From Mile 962 to Mile 2623 - approximately 1500 cubic yards of Solid Rock and 1200 cubic yards of Loose Rock Excavation and other work.

Copies of Plans and Specifications may be seen at the office of the following:

F. A. Wallace, Resident Engineer, Greenhill Hotel, Blairmore.
N. B. Bradley, District Engineer, Lethbridge, Alta.
E. J. Graham, District Engineer, Old Court House Bldg., Calgary.
Highway Commissioner, Parliament Bldg., Edmonton.

The cover of each tender will be marked by the Project Number and each bid should be accompanied by an accepted cheque or Guaranty Company's Bond for the sum of five hundred dollars (\$500.00). The successful tenderer will be required to furnish a Contract Bond to the amount of twenty-five (25 per cent) of the accepted bid.

Tenders will be opened in the presence of bidders at the time above mentioned. The lowest, or any, tender not necessarily accepted.

J. D. ROBERTSON,
Deputy Minister of Public Works,
Edmonton, February 16th, 1925.

HILLCREST HAPPENINGS

The finals for the city league were played last Sunday afternoon, when the Nightingales and Cougars played for honors. The game was fast and furious from start to finish, both teams playing their best. The first period found S. White of the "Gales" scoring in five minutes after start.

The second period, the Cougars evened up after ten minutes of play, D. Grant doing the trick. Then J. Morosky, of the "Gales," scored from centre ice. This ended the second period, with 2 to 1 in favor of the "Gales."

In the third period the Cougars seemed to have a somewhat new lease of life, but could not score. S. White and J. Morosky slipped two more in. This finished the game with four to one in favor of the Nightingales. The cup, which is on view in the window of Burnett & Cruickshanks' store, will be presented on the return of Mr. Community Hall.

Cruickshanks from the east.

The death of Mrs. J. Joseph, senior, occurred last week end. The aged lady had been ill for some time, but it was thought she was improving. She took a relapse, however, from which she failed to rally. Funeral took place on Sunday afternoon, the remains being laid to rest in Hillcrest cemetery.

The Pythian Sisters held their annual confetti ball in the Union hall on Friday evening last. The hall was beautifully decorated for the occasion with balloons and streamers, etc. The Nighthawks' orchestra furnished the music.

The Hillcrest Dramatic troupe repeated their musical and vocal programme at Bellevue last week, under the charge of Madame Jones. A capacity house greeted them in the be presented on the return of Mr. Community Hall.

Let Us Think Nationally

Can the people of Canada be taught to think nationally, and act as a national unit, instead of regarding themselves as citizens of nine separate and distinct Provinces concerned chiefly with the solution of their own problems and urging their own policies and more or less indifferent to the effect on the rest of the Dominion?

The people of Great Britain have long thought in terms of the Empire, even of the world, rather than of their own little Isle, and in the several States of the United States, despite their insistence that State rights be respected, the people think and act as citizens of the Union rather than of the individual States. Perhaps because we are yet very young as a confederation, and also because as a people we are so few in number scattered over a narrow strip thousands of miles long across a continent, Canadians have not so generally adopted the attitude of thinking and acting nationally.

What, for example, does the average resident of these Western prairies know or care about the vital problems confronting the people of the Maritime Provinces? Would the West be willing to forego the adoption of a policy which would mean a large measure of development and prosperity for it, if at the same time it meant adversity and loss to the Maritime Provinces? And would not the manufacturers and workmen of Ontario and Quebec halt with joy the adoption of any policy which meant millions to them even though it might spell disaster for these Western Provinces?

Canadian farmers are generally supposed to favor lower Customs tariffs and to regard the policy of protection as inimicable to the best interests of the Dominion as a whole. Nevertheless, a few days ago a representative convention of Quebec farmers demanded the placing of duties on certain products in order to protect themselves regardless of the effect on the great body of Canadian consumers. At the same time they declared in favor of an export duty on pulpwood in order to force manufacture in Quebec and thus create a larger home market for themselves, and finally rejected an appeal made to them that the adoption of such a policy would mean hardship and ruin for countless farmers in other Provinces who were dependent on the export market for their pulpwood.

In like manner the British Columbia fruit growers demand tariff protection in order to keep United States fruits out of the Prairie markets. Niagara fruit and vegetable growers take the same attitude, and seemingly do not care one jot if, as a result of benefit to themselves, all Canadian buyers of fruit and early vegetables must suffer.

And the Western wheat grower, would he modify his demand for free agricultural implements if it was proven conclusively that such a policy would mean ruin for the Canadian implement industry?

These questions are asked simply with the object of leading Canadians to think for a moment on their own attitude to their common country. Admittedly all sections have made sacrifices in the past in order that the whole might benefit, but has it not been done almost under compulsion and most unwillingly and grudgingly, and through no real patriotic desire to advance Canada and build up and develop a really strong and great country?

Canadians of all classes and in all parts of the Dominion were willing to sacrifice for Canada in time of war. Is it not possible to so imbue our people with love for Canada that they will voluntarily display the same spirit for Canada in time of peace?

Unquestionably there is great need for unity of thought and action, national unity, in this Dominion today. Never was the need more manifest or quite so pressing, but unfortunately, instead of the lines of cleavage and division gradually disappearing, they are becoming wider and more accentuated. At a time when the old racial and religious feelings and bitterness is being dispelled here in Canada we seem to be replacing it with geographical and economic differences which are apt, unless quickly checked, to retard future development just as effectively as did those old and foolish quarrels.

Canada is a big country in every way. It is big in territory, big in the wealth of its natural resources, big in its possibilities, yes, big in its manhood and womanhood. But in its national conception it is small. Its people lack vision and broadmindedness in some of those things which are essential to national greatness.

Individually, the citizens of Canada should strive to cultivate the habit of thinking nationally. Once they establish that habit, constructive policies and actions on national lines will automatically and quickly follow.

No Original Stonework Left
Stone by stone the decayed exterior of Westminster Abbey has been replaced until there is scarcely an original patch of stonework left, said Mr. Lawrence E. Tanner in a lecture before the surveyors' institution. The work began in the 17th century, owing to the ravages caused by the London atmosphere, and had continued since. "Externally the church is a copy—not by any means faithful to the original," said the lecturer.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Air Hero Is Given Plane

Captain Smith of World Fliers Presented With \$30,000 Machine.
Captain Lowell H. Smith, commander of the American—French world flight, has been given an airplane to add to the various gifts and mementos he has received since he and his fellow aviators started the globe.

L. C. Brand, Glendale capitalist, the donor of the plane, conveyed possession to Captain Smith in a bill of sale. The plane is a three-passenger Le Peco, rebuilt by Donald Douglas, builder of the round-the-world cruisers, and is valued at \$30,000.

Earl of Oxford and Asquith

Herbert Asquith Has Decided On His New Title

Herbert Asquith, recently raised to the peerage, has decided to assume the title of Earl of Oxford and Asquith. Letters patent under the Great Seal will be issued shortly, conferring on the Liberal leader that title, which is a compound, or dual one, but rare in nomenclature of British nobility.

The title is an entirely new one and in no way an extension of the old title, Earl of Oxford. He will use both titles in his signature.

Neuralgia: Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly
Mr. W. V. Greenwood, formerly connected with the Guide newspaper, has written: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, earache, toothache, cramps and disordered stomach, I know of no preparation so useful and quick to relieve as Nerviline. Remember this, wherever there is pain, rub on Nerviline, and you will get prompt results—35¢ at all dealers."

Elimination Of Rust Menace Very Important

Dr. J. H. Griedale Places Loss Last Year At \$50,000,000

Dr. J. H. Griedale, deputy minister of agriculture, states that the most important work being undertaken in Canada is rust research. Last year the farmers of the west had lost \$50,000,000 from the rust menace, and he said a systematic research into the whole question was now planned with the hope of ultimately discovering a wheat immune to rust, and which at the same time contains the desired milling proportion, in addition to being able to be harvested efficiently.

A HAPPY CHILDHOOD IS A MATTER OF HEALTH

Little children quickly get out of sorts but by prompt treatment they can just as quickly be set right again. Most of their troubles arise from the first places from the stomach and bowels; that is why a good clearing-out is the first thing the doctor prescribes. Mothers, who not let Baby's Own Tablets keep your children well. Unlike that ill-smelling, rank tasting castor oil so dreaded by most children, the Tablets are pleasant to take and their action, though thorough, is gentle and causes no discomfort to either the baby or the growing child. Baby's Own Tablets are a never failing remedy for relieving constipation and indigestion; thus they break up colds and simple fevers, expel worms and make the teething period painless. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, Cal.

Bargain Sale Rush

Six Women Taken to the Hospital Suffering From Injuries

British women take their bargain sales even more seriously than women in the United States. At 5 o'clock of a recent morning a hundred women were lined up before the door of a small West London department store which had advertised such a sale. At 8 o'clock there were 2,000 in line. At 9.30 the doors were opened and the enthusiastic women rushed the main entrance. Huge glass windows were smashed. The women were customers hit, scratched and belabored each other with umbrellas. An ambulance took six women to a hospital.

A workman's clubhouse will be built near Yokohama, with a fund of 350,000 yen contributed by citizens of the city at the time of the earthquake. The building will be "earthquake-proof."

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

A man who wants to be mean never wants an opportunity.

For Every Ill—Minard's Liniment

W. N. U., 1934

Presents Grain Report

Mr. Justice W. F. A. Turgeon, Chairman of the Royal Commission, which has presented its report on the grain trade, tabled in the house by the minister of trade and commerce, is an exhaustive treatise of the grain trade from the time the crop leaves the farm until it is exported. An appendix by Commissioner W. J. Rutherford goes even farther, tracing the grain to the British and continental markets.

Every channel is fully explored by the commission headed by Mr. Justice Turgeon, who personally wrote the report. Many reforms are suggested.

Propose Export Duty On Wheat

Recommendations of Grain Commission In Voluminous Report

The voluminous report of the royal commission inquiry into the grain trade, tabled in the house by the minister of trade and commerce, is an exhaustive treatise of the grain trade from the time the crop leaves the farm until it is exported. An appendix by Commissioner W. J. Rutherford goes even farther, tracing the grain to the British and continental markets.

Every channel is fully explored by the commission headed by Mr. Justice Turgeon, who personally wrote the report. Many reforms are suggested.

Their role mainly to mixing, grading and cleaning the wheat, to loading facilities and the work of the elevators.

A very significant feature of the report from the general point of view is the proposal of the commission that Canada place an export duty on wheat going to the United States equal to the American prohibitive tariff against Canadian grain. Such an impost, the commission believes, would correct the situation in which, while Canadian wheat is shut out of the United States domestic market, it is bought by American millers, ground in the United States, and the flour sold as an American product.

The export duty, the commission says, would either force the United States to abandon its prohibitive tariff or compel American millers to come into Canada and mill the grain here.

The report states that the question of mixing was the most controversial side which had to be dealt. It goes into it at length. It finds that by far the larger number of elevators at the head of the lake are simply mixing houses.

Midway Attractions At Fairs

Western Canada Association of Exhibitions Arranges Details

Midway shows for class "A" western fairs will be supplied by the Ruben and Cherry Company, of Montgomery, Ala. This decision was reached by the attraction committee of the Western Canada Association of Exhibitions which met at Edmonton.

This carnival attraction will be staged at the summer exhibitions at Edmonton, Calgary, Saskatoon, Regina and Brandon.

The carnival shows for the class "B" fairs will be provided by the Gus Sun Company, which had the contract last year.

A decision to have an out and out running horse meet at Edmonton, Calgary and Saskatoon was made by the race committee of the Western Canada Association of Exhibitions. It was also decided to recommend that the minimum purse be \$300.

Manitoba Government to Aid Farmers
Encouragement of co-operative marketing organizations, survey of the natural resources of the province, and scientific study of the wheat rust problem, were forecast by the Lieut-Governor in his speech from the throne at the opening of the Manitoba Legislature recently.

Holds Europe's Smoking Record
Switzerland holds the smoking record for Europe, according to statistics just issued, consuming 16,000 tons of tobacco annually, or five pounds per capita. France comes second with 3 pounds per capita.

A Followup

It was remarked that he had been away. "Yes," he said, with a note of gentle resignation in his voice, "my wife took me on her honeymoon."

A man isn't really old unless he isn't going anywhere after supper.

Expects France To Pay

U.S. President Replies to Statement of French Ambassador

Responding to a statement by the new French ambassador to the United States, Emile Darcachier, that the "national debts" of nations as well as their debts of gratitude must be paid, President Coolidge declared that the United States already had discharged the debt of gratitude she owed France as a result of French aid in the American revolution. Referring to the United States participation in the great war, the president added that thus had the debt of gratitude been paid and "both governments should experience deep satisfaction in their solidarity that material debts shall also be discharged."

Freedom From Asthma

Asthma is one of the most distressing troubles, sudden in its attack and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Britain Increasing Air Force

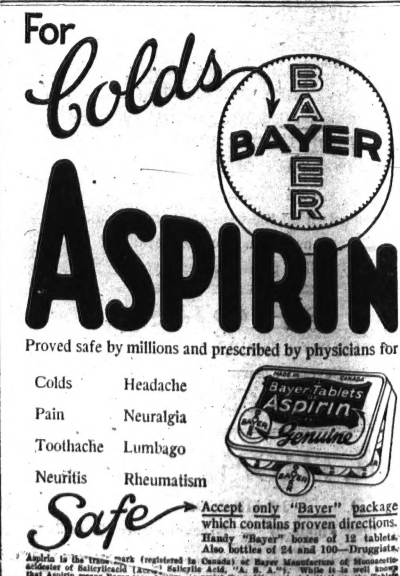

Will Bring Expenditures to Over Nineteen Million Pounds

Due to the plans for extension in the British air force, including a new squadron for home defence, the air ministry will seek sanction for an increase of £3,000,000 in appropriation for the coming financial year. The increase calls for the creation of six or seven home defence units of an approximate cost of £500,000 each, which will bring up the ministry's expenditures to approximately £19,500,000.

SENATE REFORM IS DISCUSSED BY JOHN EVANS

Ottawa—In the debate on the address in reply to the speech from the throne, John Evans, Progressive, Saskatchewan, expressed disappointment over the delay to senate reform. He admitted that the very nature of the constitution prevented the House of Commons from carrying out an amendment which would give to the commons the power to reform the senate. Even in the House of Commons it might be difficult to get unanimous action because "no many look upon the senate as a haven of refuge from the uncertainties of party public life."

Perhaps the inter-provincial conference was the best way of dealing with the matter, even if it implied another session's delay.

Equal representation for the various provinces on the floor of the senate was the only fair method. A total membership of 45 senators, five from each province, would be quite sufficient. Ontario and Quebec had come to think of Canada as made up only of themselves.

In concluding his speech, he advocated an elective senate, and hoped the conference between the Dominion and Provincial Governments respecting senate reform would meet with success. Until such reform came about the problem of sectionalism would become increasingly acute.

Would Reduce Indemnities

Suggest a Reduction to the Pre-war Basis

Ottawa—Herbert Marler, Liberal, St. Lawrence-St. George, Montreal, suggested in the House of Commons that the house should give the lead in reducing expenditures by consenting to a reduction in seasonal indemnities.

"To what extent would you suggest our indemnities be reduced?" questioned Mrs. Agnes MacPhail.

Mr. Marler: "I would reduce them to the pre-war basis."

Mr. Marler explained that more than one million dollars would be saved if the indemnities of the senate and the house were reduced to pre-war figures.

The present indemnity of members of the House of Commons is \$4,000. Previous to the war it was \$2,500.

No Change in Grain Rates

Hudson Says Grain Rates Under Pact Will Be Continued

Winnipeg—"I do not know what the Supreme Court will do, and I have no inside information as to what the government intends to do with regard to the Crown's Nest Pass agreement, but I will say with all confidence that so far as the grain rates are concerned they will continue. I have no authority for saying that, beyond my confidence that the position achieved in respect to those rates is such that it cannot be altered."

The statements were made by Hon. A. B. Hudson, K.C., M.P., at a banquet given in his honor by the South Winnipeg Liberal Association, on the eve of his departure for Ottawa.

Would Deport Criminals

Washington—Deportation of all aliens convicted of violating the national prohibition, narcotic or white slave laws is provided in a bill passed by the house. The bill was introduced by Rep. Hays, of Illinois, Republican. It now goes to the senate.

Recent High Living Cost

Prague—Ten Communists and four policemen were wounded during a Communist demonstration here against the high cost of living. Fifteen arrests were made.

French Air Pilot Killed

Nancy, French West Africa—The second plane of the French air mission to Lake Tchad crashed on taking off. The pilot was killed and the other occupant injured.

Wretchedness of Constipation

Can Be Quickly Overcome by CARTER'S LITTLE LIVER PILLS

CARTER'S LITTLE LIVER PILLS
Purify your blood—act sure and gently on the liver. For bile, indigestion, constipation, headache, dizziness, and all ailments of the bowels. They do it!

W. N. U. 1864

Progressive Member Would Put Ban on Horse Racing

Ottawa—Horse racing will be brought up in the House of Commons again this session by W. C. Good, Progressive, Brant, who has given notice of a resolution which reads: "That the special privilege now given to racing associations under the Criminal Code, of carrying on public gambling operations in connection with their race meetings, be detrimental to the best interests of Canada, and should be abolished."

Mennonites Sell Land

Believed Nearly a Million Dollars Involved in Transaction

Saskatoon—That an agreement was signed by leaders of Old Colony Mennonites of Hague district for the sale to Chicago capitalists of 40,000 acres of their land with livestock and equipment, was stated by F. A. Williams, of Winnipeg, representing the American interests here.

The price at which the sale is to be made was not stated, but it is believed nearly a million dollars involved. While many of the Old Colony Mennonites in the Hague district have already gone to Mexico, there still remain a considerable number of members of the colony who are remaining in Canada waiting for the sale of their lands before making the trek to Mexico.

Would Amend Criminal Code

To Permit of Appeal in Cases of Conviction on Legal Grounds Only

Ottawa—The right of convicted persons to apply under the Criminal Code for a new trial, on questions of fact, is likely to be brought up in parliament this session by Joseph Archambault, M.P., Chambly-Verchères, who favors an amendment to the code in this respect, "so as to permit an appeal in cases of conviction on legal grounds only."

A further amendment may also be asked, which will prevent an accused who has elected to be tried by a jury, from changing his option after a true bill has been brought in by the grand jury and asking for a trial by a judge.

Protest From British Farmers

Claim U.S. Bacon Floods Market As "Best Quality" Canadian

London—On the contention that they are being "hoodwinked" to the tune of 25,000,000 pounds of bacon a year—bacon which is cured in the United States and sent to Canada and then re-exported to England as "best quality" Canadian—the National Farmers' Union of Great Britain has started a movement here to put an end to the practice.

It is understood here that the Canadian Government has been requested by various organizations to create a distinctive brand which is to be placed on all exportable bacon from Canada in the future.

The Farmers' Union also took a leading hand in bringing about the embargo on American potatoes which became effective some time ago, this action having been taken, it has been explained, to prevent an influx of the Colorado beetle, better known over here as the American potato bug.

Building Decreased Last Year

Ottawa—According to revised statistics of building permits, furnished the Dominion Bureau of Statistics, construction work was slightly less active in 1924 than in 1923, or 1922. The building in these cities during 1924 was valued at \$129,731,356, in 1923 at \$132,501,547, and 1922 at \$147,982,173.

Shoulder Blade Of Mammoth

London—While digging next to the Belgrave Hospital for children in Clapham Road, workmen found a large fanghatched bone six feet below the surface. An expert from the National History Museum pronounced the bone the shoulder blade of a mammoth belonging to the pleistocene period of approximately 10,000 years ago.

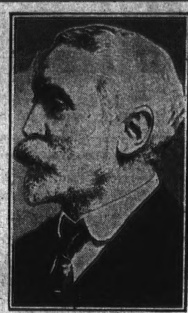

Debarred Travel In Stereage

Honolulu—The Oxford University debaters, headed by Malcolm Macdonald, son of the former British premier, arrived here in stereage, because there were no other accommodations available when the vessel left San Francisco, and they did not wish to postpone their departure.

Noma Quarantine May Be Raised

Nome—Diphtheria quarantine regulations here may be raised February 20 if conditions continue to improve, the Nome board of health announced. Lifting of the regulations would constitute a thirty-day quarantine. Several patients who were quarantined early have recovered.

Negotiate Security Pact

LORD D'ABERNON

British Ambassador to Germany, whose visit to Chancellor Luther is understood to have been in connection with the negotiation of a security pact.

FORKE WANTS A NATIONAL POLICY FOR ALL CANADA

Ottawa—In his speech in the debate on the address in reply to the speech from the throne, Robert Forke, Progressive leader, said he was of the opinion that through the development of private enterprises and public utilities rather than through the passage of legislation which met the mood of the moment and too often was forgotten as soon as it was on the statute books, would bring Canada out of the land of bondage into the land of progress. "It was not possible to leave the national problems entirely to the government to solve. It was a task for all Canadians to face and help overcome."

Referring to the speech of the premier and the leader of the opposition, Mr. Forke said they furnished an interesting study in extremes of mood. Both attitudes were unimportant. He referred to the manifesto issued by Mr. McElwain as a most happy document, and described "his solution as something like a Christmas tree—something on it for everyone." No amount of reasoning or argument could convince the people living on the prairies that protection would prove of any use to them. The much talked of home market would not solve the problem for the western wheat producer. "We want a national policy for all the people of Canada from the Atlantic to the Pacific."

China Withdraws From Opium Conference

Failure of Attempt to Suppress Opium Smoking in Far East

Geneva—The Chinese delegation withdrew from the first or far eastern opium conference when that body was brought together again to reconsider its findings.

In his letter to the conference, the chief Chinese delegate, S. Alfred Ste, said the withdrawal was due to the conference's failure to adopt a system for the suppression of opium smoking in the Far East.

The Chinese have now withdrawn from both the bodies which were convened in Geneva to deal with the opium and narcotic drug evil. Mr. Ste left the international opium conference, February 7.

Liquor Freight Rates Remain

Ottawa—In dismissing the complaint of the Manitoba Government commission against carload commodity rates on liquor, which are spirits, the board of railway commissioners, states, in a judgment made public here, that no good reason has been established in evidence as to why liquor should be given a different treatment as to rate basis from other commodities.

Latvia Passes Liquor Law

Riga, Latvia—The anti-alcohol wave is sweeping over Latvia. A law has been passed which is tantamount to prohibition, and it has been seized upon by the city authorities of Riga to descend upon some 50 hotels and restaurants on the grounds that they were selling liquor. The city fathers are now considering whether these places should not be made to close down for good.

Asquith's Title Officially Announced—The official gazette announced the issuance of letters patent, dated February 8, conferring the dignities of a viscount and earl of the United Kingdom upon Herbert Asquith, and his lawful heirs, by the titles of Viscount Asquith of Morley, in the west county of Yorkshire, and the Earl of Oxford and Asquith.

Allocate Proceeds of Fine Imposed On Egypt

London—The House of Commons has accorded the government formal sanction for the disposition of the £500,000 fine imposed on Egypt for the murder of the Sirdar, Major-General Sir Leo Black. Austin Chamberlain, secretary for foreign affairs, announced that £40,000 had been paid to the Sirdar's widow as compensation; £2,000 to the Sirdar's aide de camp, Major P. K. Campbell; £3,000 to the Sirdar's chauffeur, also wounded. The remainder is in the hands of the government, to be applied to benevolent objects in the Sudan.

Armenian Charged With Fraud and Conspiracy

Mounted Police Have Uncovered Plot to Smuggle Undesirables

Ottawa—A conspiracy involving fraud and impersonation against the department of the secretary of state, immigration and colonization and external affairs, in illegally obtaining certificates of naturalization, passports and immigration permits for the entry of relatives or friends of foreigners, was disclosed. The conspirators, has just been unearthed by the Royal Canadian Mounted Police. As a result of investigation by the police, G. H. Alexander, an Armenian, was arrested at Galt, Ont., and appeared in the Ottawa police court on a charge of conspiracy. He pleaded not guilty, elected to be tried by a jury and will come up again for preliminary hearing.

Russia Needs Flour

Failure of Crop Giving Soviet Government Grave Concern

Moscow—With the failure of this year's crop the question of providing flour for Russia's millions of population is giving the Soviet Government increasing concern. Renewed orders are being placed abroad to meet the acute shortage of grain at home. With the exception of the Caucasus area, Russia had an unusually mild and irregular winter this year, affecting crops adversely. The absence of snow and moisture has caused large sown areas to perish. It was announced at a meeting of the government's central executive committee that Russia had spent 70,000,000 gold rubles in providing the population with sowing material for the next harvest.

Officer Is Promoted

Supt. Knight of R.C.M.P. Obtains Rank of Assistant Commissioner

Ottawa—Announcement is made of the promotion of Superintendent R. S. Knight, Canadian Mounted Police officer, to the rank of assistant commissioner. The promotion dates from January 1, 1925.

Assistant Commissioner Knight joined the force in May, 1910, and during his career has served at Regina, in the Yukon, at Winnipeg, and with the Royal Canadian Mounted Police squadron in Siberia.

Australia Not Helping Aliens

Premier Bruce States Government Offers Them No Encouragement

Melbourne—Replying to the Victorian Government's protest against the unrestricted immigration of Southern Europeans, Federal Prime Minister Bruce said stress on the fact that no encouragement or assistance had been offered to aliens. The Federal Government, he added, had announced recently that it desired to limit the issue of passport visas to Greeks and Jews to 100 a month for each nationality.

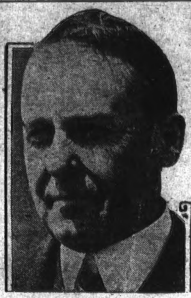

Greece Appeals to League

Geneva—Greece has appealed to the League of Nations against the action of Turkey in expelling the Most Rev. Constantinos, patriarch of the Greek Catholic Church, from Constantinople, claiming that this action endangers the friendly relations between the two countries.

GIN PILLS FOR THE KIDNEYS

Kidney disease is dangerous unless checked. Gin Pills will remedy all kidney troubles. Get a box to-day before it is too late.

Withdraws From Opium Conference

STEPHEN Q. PORTER

who has withdrawn, together with other members of the American delegation, from the international opium conference.

Disagree On One Point

France Not Ready to Consider Debts and Reparations Separately

Paris—The official impression of note on the inter-allied debt question from Winston Churchill, British chancellor of the exchequer, is more favorable than the opinion of the document expressed by the French newspapers, editorially, it was said in circles near Premier Herriot. The British suggestions are regarded as very generous and as presenting only one important difficulty, that involved in the separation of debts from reparations, was declared. "The country, in the opinion of official circles, is not yet ready for consideration of these two questions, separately. This, it was intimated, is the only point that prevents immediate acceptance of Mr. Churchill's note as the basis for a settlement of France's debts to Great Britain."

League May Meet in Canada

Suggestion Made to Hold Session of League of Nations at Ottawa

Geneva—The idea of holding some future assembly of the League of Nations in Canada, presumably Ottawa, is being quietly branched at Geneva. The suggestion originated with Sir Herbert Ames, Canadian director of the league's finances, and it is said it is adopted it would have the hearty support of the Canadian Government and the British dominions.

So far, the project has merely reached the unofficial stage of suggestion, but it is understood the delegates of many countries have privately approved the plan. One thought expressed is that the convocation of the assembly in Canada would bring the workings of the league home to the people of the United States, as well as the Canadian people.

C.N.R. TO SPEND EIGHT MILLIONS ON BRANCH LINES

Ottawa—The Canadian National Railways expended \$1,650,751 on branch lines construction work in the calendar year of 1924. The estimated expenditure on branch lines in 1925 is \$8,756,585. The whole programme of the Canadian National Railways involves the construction of 548 miles at an authorized expenditure of \$15,165,000.

The report of the department of railways tabled in the House of Commons gives full details of all work done on all branch lines.

A total of 915 miles of track were laid; 385 miles were ballasted; a proportionate amount of grading work was carried out, and 72.4 miles of telegraph lines were added to the system. The greatest progress was made on the Peoibus, Sask. Prince Albert northeast, Sask. Gravelbourg, Sask. St. Boniface, Man. Lac Manitoba, and Grande, Quebec, branches. Some further work, which will practically complete these branches is provided for in 1925.

Rate Discrimination

Higher Westward Freight Rate Not Justified Says D'Arcy Scott

Vancouver, B.C.—There was no justification for a higher freight rate westward than eastward, even on products intended for export, D'Arcy Scott, K.C., former assistant chief commissioner of the board of railway commissioners, told the members of the board of trade here.

Cost of operation on the lines westward from the prairie provinces was not any higher than on the eastward lines, and rates were lower, Mr. Scott declared.

DOMINION HAS SECURED HUGE ORDER FOR FLOUR

Toronto—Canada booked the largest flour order in the history of the world's milling industry. The purchase, totalling 1,300,000 barrels, was made by the Russian Government through its agents, the Amtorg Trading Company, at New York. The Maple Leaf Milling Company of Canada is to furnish 1,150,000 barrels, and the Western Canada Flour Mills the balance.

"They are to receive cash of more than \$12,000,000 as the flour is loaded at New York, whence the Russian Government is shipping it to Baku in the Black Sea, for the benefit of its hungry people. Delivery is to start as soon as ships are available, and continue until April."

It will take something like 165 trains to convey the shipment to New York, and 22 ships will be used to transport the flour, which represents the product of more than six million bushels of Canadian wheat.

"There is no disguising the fact that it's an enormous order," was the comment of D. A. Campbell, general manager of the Maple Leaf Milling Company, discussing the deal. "I do not believe an order of that size for any commodity has ever been placed before, the world over."

Suggest Tax On Bachelors

Herbert Marler Thinks It Would be a Good Plan in Some Cases

Ottawa—Are Canadian bachelors in danger of having a tax imposed upon them? Evidently the matter is at least in the mind of one of the members of the house.

"Would you suggest a tax on bachelors?" asked Donald Sutherland, Conservative, South Oxford, in the course of the speech of Herbert Marler, Liberal, St. Lawrence-St. George.

"In my honorable friend a bachelor," countered Mr. Marler and laughter. "If he is, I would put a large tax on them. I would put such a high tax on bachelors that he would be completely wiped out in a few minutes."

Characterized As Political Sop

Ontario Beer Proposal Criticized By Toronto Globe

Toronto, Commenting on the strongest beer proposal introduced in the legislature, the Toronto Globe says:

"This announcement is easily the most sensational that has come from Queen's Park in many a long day. The whole question of prohibition and perhaps more important, the matter of a premier's pledged word, are thrown into the political cauldron."

"The Globe contends that the proposed legislation violates the basic principle of the temperance law and characterizes it as 'a political sop' thrown to the 'wets' in the Conservative party."

Silver Goits For Russia

Moscow—Ten million dollars worth of silver coins made in Great Britain for the Soviet Government, have been placed in circulation. Orders were given at the same time to the state mint at Leningrad for a supply of gold sovereigns and silver talers. These have been issued only in paper.

Cable Connection With Italy

Rome—The completion of the cable between Italy and America was announced in the senate by Minister of Communications Ciano. The announcement was greeted with loud applause by the whole senate, which rose to its feet cheering.

YOUTHFUL BOLSHEVICS

School teachers at Drumheller, Alberta, instructed by the School Board to inaugurate patriotic exercises in the school, have been checked in their efforts by the attitude of some parents in that district.

Some of these absolutely refused to let their children sing "O Canada" or "God Save the King" or to salute the flag.

There are certainly instances in modern life where these patriotic usages are worked to death. To compel full-grown men, with fixed ideas, to jump to their feet five or six times a day when the National Anthem is played is jingoistic nonsense.

But to cut these shynolds of patriotism out of the lives of growing children is a crime.

This is a mechanical age. But to mechanize the plastic minds of children—to rob them of all romance and symbolism—is to cramp and fossilize their whole existence.

Man is one part reason and ninety-nine parts sentiment. Starve his sentimental nature, take from him the symbols, the elements of high romance, and you leave him just one-hundredth part of his equipment for progress and action.

This modern process of mechanization has injured more than one of our institutions.

If the church, for instance, has lost its grip on young people, it is because the elements of romance and adventure have been replaced in formal Christianity with cold, unattractive reason. The adult may carve out his own road to Heaven with his intellect, but the child must be made to conceive religion as a colorful drama, as a symbolic battle, with pennants flying and trumpets sounding, against the forces of evil.

Nationalism may be only a phase in the progress of the human race. Eventually man may feel the same loyalty to all mankind as he feels today for his country. But, as yet, the world brotherhood is not effective. Humanity cannot inspire the devotion that nationality can.

And, until racialism or speciesism—to coin a word—can afford the same inspiring symbols as nationalism affords, the symbols of nationalism must be preserved.

And they should be preserved among the children of Drumheller, even if a few of these Communist parents have to go to jail for it—Vancouver Sun.

WHEN LABOR BECOMES EMPLOYER

"Miners advertise to create jobs," an article in the December-11th issue of "Printer's Ink," is of particular interest.

"For the last few months the United Mine Workers of America, District No. 13, which takes in Iowa, has been advertising to promote the sale of coal mined in Iowa. It is a rather significant campaign, for it puts the union coal miner in what is undoubtedly a new light to those outside the ranks of organized labor. While the principal aim of the advertising is to bring about a bigger purchase and use of Iowa-mined coal within the State, the campaign's real significance lies in its indication that unions, in the future, will count heavily on advertising to help solve their problems.

"Briefly, here is what the union miners of Iowa are doing: They have raised a fund of \$11,000 to be spent in advertising coal mined in Iowa. They have financed the advertising as a result of their own initiative, except in one county, where mine operators

J. E. UPTON == Your Home Tailor

ators have co-operated on a fifty-fift basis. They are asking Iowans to buy coal mined at home in order that they may have more, and steadier employment. This appeal, however, is made essentially on a straight business basis, viz: that Iowa coal contains just as many, if not more, heat units as any coal mined. They are carrying on in spite of the fact that operators, with only a single exception, have not (up to the time this is written) co-operated with them either morally or financially. Finally, as if to convince advertising men that they are not absolute novices in the technique of distribution, they are merchandising their advertising and following it up with calls on the coal trade of their State.

"The mere fact that this advertising for Iowa-mined coal is being financed by the unions themselves indicates an appreciation of the fact that selling the product is fully as important as producing it, both to employer and employee. Labor, by becoming an employer itself, is experiencing new sensations, encountering new problems and reaching new understandings."

MORIARTY MAKES CLEVER CAPTURE

The following is copied from a recent issue of the Edmonton Journal. Const. Moriarty will be remembered by many local friends. He has recently returned from a visit to his old home in Ireland:

"Relentless pursuit by Constable Moriarty, A.P.P., of Big Valley, of a man wanted for housebreaking and burglary in Big Valley and Erskine resulted in the capture last night near Bashaw of N. W. Granger, who is said to be a horsebreaker of Avonlea, Sask. The chase was over a distance of nearly sixty miles, and the man being pursued was well mounted, while the police used up three teams in his pursuit. Over roads badly blocked with snow, and at places almost impassable, the chase continued, the man being traced from place to place by the officer of the law as he continued on his northward.

On Thursday afternoon he was reported to be near Bashaw, and Constable Crossley, of that town, went out to intercept him, as a result of a phone message from the pursuer. The man was traced to the home of B. Goodwin, five miles east of Bashaw, where the two officers closed in upon him.

On the man was found part of the goods which had been stolen. They included jewelry totalling \$500, from the home of Fred Biggs, at Big Valley, and a fur coat and other articles from the Belits farm, at Erskine."

Mrs. D. Fleming underwent an operation for appendicitis at the Blaimore hospital last week end and is reported doing well.

Canadians Make Pilgrimage to Holy City

St. Peter's, Rome.

Canadian response to the Papal Bull promulgating the "Holy Year Universal Jubilee" is, according to reports of transportation companies operating between this continent and Europe, assuming unexpected proportions. Canadian Pacific officials report that applications for accommodation on the "S.S. Minnedosa," chartered by the Home Tours Incorporated to carry Holy Year pilgrims to Bordeaux this summer, are steadily pouring in from all over Canada and the United States and that the Canadian contingent will be accompanied by many distinguished members of the episcopate, clergy and religious orders. His Eminence Cardinal Louis-Nazaire Bégin, of Quebec, has signified his intention of sailing on the Minnedosa as have several other high dignitaries of the Church in Canada.

The opening rites of Holy Year have already been performed and the Papal Bull formally announcing its commencement and inviting Catholics the world over to assemble in Rome has been issued. The purposes of the Great Jubilee as set forth in the Papal Bull are to live the year in expiation of sin, and peace through the unity of all charity. The opportunities to preside at Eucharistic ceremonies afforded them by His Holiness Pope the decision of many to visit the Holy City.

Canadian Pacific S.S. Minnedosa which will carry pilgrims from Canada to May.

Montreal and

His Eminence Cardinal Bégin will lead the Canadian Pilgrimage to Rome, leaving Montreal and Quebec on May 2nd on board of the Minnedosa.

Quebec on May 15th next, one of the first sailings from the St. Lawrence season for Bordeaux where the pilgrims will disembark and continue their journey by rail, stopping at Lourdes, Carcassonne, Marseilles, Mien and Genoa en route to Rome. This vessel has accommodation for seven hundred passengers and in view of the special low rate quoted for the tour, it is expected that the Minnedosa will carry a capacity passenger list.

Although born in Lévis, Quebec, in 1840, Cardinal Bégin is well known in Rome as it was there in 1865, that the present head of the Roman Catholic church in Canada was ordained to the priesthood. In 1868 he was created bishop of Chicoutimi and, in another three years, Archbishop of Cyrene and coadjutor of His Eminence Cardinal Taschereau. In 1894 he took over the administration of the diocese of Quebec, being elevated to the Cardinalate in 1914.

NEW BOOK MAKES ROMANCE OF HISTORY

Tells Story of Canadian Pacific Railway and Building of Dominion

A facetious American once referred to the Canadian Pacific Railway as "Canada on Wheels." Great as it is, the Canadian Pacific would be the last to appropriate such an appellation. It can be truthfully said, however, that to understand the recent history of the Dominion one must know that of the Canadian Pacific. Now at last comes a volume, well illustrated with photographs, which presents that history in its most palatable form—that is, in a form emphasizing the human factor. "The Romance of the Canadian Pacific Railway," by R. G. MacBeth (the Ryerson Press, Toronto, \$2.50).

The author, who has a number of historical works to his credit, is singularly well equipped. Apart from his literary skill, he has the advantage of having lived in the Canadian West all his life. He has always been in close touch with the Canadian Pacific, though he is careful to point out that he has never been connected with it and has written and published his book independently.

Mr. MacBeth here traces the amazing story of the company's development from the world's greatest transportation system; of the steamship, of the telegraph and express; colonization; irrigation; hotels and bungalow camps; of its war service and of all its activities, with a wealth of interesting detail which illustrates the brilliant administrative and organizing ability of its executive.

Canadians should be proud, as Mr. MacBeth reminds them, that their country approved the construction of this pioneer transcontinental when the population was only 4,000,000, though the United States had not dared to undertake a similar road till she had ten times that number. The frightful difficulties, political, technical and financial, through which the company's sponsors and founders fought their way to victory are well summarized. For instance, it is recalled that sections of the line north of Lake Superior cost \$500,000 a mile to build, and a muskeg east of Winnipeg swallowed seven miles before it was conquered. The author shows that the successful accomplishment of the work was especially creditable because it took place in a period of immense depression.

Sir William Van Horne, general manager and later president, that man of tireless energy, vision and determination, is the central figure in the volume and there are many anecdotes illustrating his versatile character. But all the other great men of the company—Mount Stephen, Shaughnessy, Beatty, Angus and a host of others—receive their due. Lord Shaughnessy's fine words: "The shareholders and directors of the company have always been impressed with the idea that the interests of the country are intimately connected with those of the Dominion and no effort or expense has been spared to help in promoting the development of the whole country" are simply backed by the company's deeds. And the author makes a statement which is very a propos when he says: "The country and the railway, in such a case as this, must stand or fall together. Each is necessary to the prosperity of the other. Hence for one to attempt the destruction of the other is practically a roundabout but effective way for that one to commit suicide."

After seventeen days' flight to save Floyd Collins, his body was reached on Monday night in a cave near Cave City. The body will likely be buried in the same cave.

A prairie chicken was instrumental in causing a delay in the arrival of the Canadian-National Continental Limited near Winnipeg on Sunday last. While the locomotive was speeding at the rate of 50 miles an hour, its powerful headlight was suddenly extinguished. The train was stopped and investigation revealed the light totally demolished, and within the lamp the mangled remains of the bird.

He—"I had a good joke to tell you this evening, but I see you are not in a condition to receive it."

She—"Why?"

He—"Because if your face lights up the powder will go off!"

PRISONERS SAY RELIGION FAILS

Surveys among prisoners in the Los Angeles county jail indicate that there is something wrong with present educational and religious methods, in the opinion of Raymond I. Turney, director of the Los Angeles crime commission. He expressed this view at a recent meeting of the Southern California academy of criminology.

Seven per cent of the inmates of the county jail, Mr. Turney said, were college graduates, as against 6½ per cent in ordinary civil life; 12½ per cent of the prisoners had college training, 45 per cent were high school graduates compared with 25 per cent outside the walls.

All the prisoners agreed, added Mr. Turney, that there had been a lack of moral training and a defect of character building training in the schools, and that the same thing was true of the religions, a majority of which were represented.

Mr. Turney declared that most of the prisoners concurred in the belief that habitual criminals should not be allowed to bring children into the world. All believed in punishment, he continued, but favored institutions where prisoners could be employed in producing some commodity.

A general meeting of the Pass Retail Merchants' Association was held in the Elk's hall yesterday afternoon.

The laying on of hands may have woured few diseases, but it worked wonders in chronic cases of impudence.

Capt. W. M. Plunkett, of Dumbell's fame, was married on Saturday last in Calgary to Mrs. J. M. Taylor, of Guelph, Ontario.

A fine of \$1000 was imposed on the Great War Veterans' Association at Victoria, last week, following conviction on a charge of supplying beer to minors.

A most successful whist drive was held by the ladies of St. Anne's church in the Elk hall, on Monday night. A number of valuable prizes were awarded.

MERCHANTS—A rise in price of Counter Check Books is threatened. Orders should be left, with The Enterprise before the end of the present month. Phone for quotations.

The road along the hillside leading west from Crows' Nest station is about completed. This was one of the most dangerous pieces of highway in the west. Now it is possible for two cars or vehicles to pass anywhere along the hill.

Described as the finest coastal vessel in the world, the "Princess Kathleen," recently launched by Lady Mount Stephen, widow of the late Lord Mount Stephen, a former president of the Canadian Pacific Railway, left Glasgow on January 15 on her ten thousand mile journey through the Panama canal to join the Canadian Pacific's fleet of coastal steamships plying the seaboard of British Columbia.

A historic pageant of some proportions is being planned by the Calgary exhibition board for this year, its object being to commemorate the fiftieth anniversary of the founding of the city by the old North-West Mounted Police in 1875. In the period which has since elapsed, Calgary has grown to be an extremely busy, modern city, having a population of 75,000. A stampede similar to those held in Calgary in previous years is also planned for this summer.

The itinerary of the "All Blacks," New Zealand's wonderful rugby team, hitherto unbeaten, in their tour of Canada, was announced by the Canadian Pacific recently. Landing at St. John, N.B., on January 31, from the company's steamship "Montclair," the team will proceed across the Dominion via Canadian Pacific lines. They will make stops at St. John, N.B.; Montreal, on February 1; Toronto, February 2; Niagara Falls, February 3; Calgary, February 6; Banff, February 7-9; Vancouver, February 10-31, and sail from San Francisco on the 25th. Calgary is giving them a ball and dance at the Palliser Hotel, they will take part in the Banff winter carnival, and will play teams from Vancouver and Victoria while on the coast.

Very heavy summer travel is anticipated by the Canadian Pacific Railway during 1925, especially to conventions on the Pacific coast of Canada and the United States. C. B. Foster, passenger traffic manager of the company, announced recently. Canadian and American railroads expect 150,000 persons to attend these conventions, some of which will be very large. At least thirty westward bound special trains, and as many eastward bound, will be provided by the Canadian Pacific to handle the delegates. Mr. Foster stated, and Banff and Lake Louise expect great seasons, as so many of the travellers will stop off at those famous mountain resorts. There will also be a very heavy movement to conventions in eastern Canada and the eastern United States.

The first panny of the season was picked in the Nelson district on Sunday last.

It used to be said that man descended from the monkey. Looking around the Crows' Nest Pass, one would judge that some men came from even further away than that.

ORDERS EXECUTED DAILY

Here and There

The following apt comment on the careless motorist and his misadventure comes from the Boston Transcript:

"If a freight train at a crossing
"Hits an auto fast and square
"There's the freight train—Where's the auto?"
"Echo answers 'Where!'"

Trace at the rate of 20,000 a day have been planted by farmers in Western Canada during the last 20 years, according to a report of the Federal Department of Agriculture. A total of 150,000,000 young trees, the report shows, has been distributed to farmers in that section in 1925.

Canada has entered into negotiations with Germany for a trade agreement which will give her the benefit of the most favored nations agreement. Experts to that country very nearly doubled during 1924 and at the close of the year Germany was practically in the position of being Canada's third best customer.

A co-operative shipment of poultry to New York City, consigned and handled by the Dominion Poultry Service, Alberta branch, brought good results. The shipment consisted of two refrigerator carsloads of turkeys and the shippers received 25 cents a pound for their birds, the New York selling price being 41 cents a pound.

Among the interesting books of the season is "Canada's Great Highway: from the First Stakes to the Last Spike," by J. H. E. Secretan, C.E. (published by Thorburn and Abbott, Ottawa). Dealing with the early history of the Canadian Pacific Railway, the volume contains many reminiscences of life in construction days as experienced by the author, who was a member of the company's engineering staff.

WORLD HAPPENINGS BRIEFLY TOLD

Field Marshal Bogen, opponent of Great Britain's most noted military leaders is dead.

Canada oil companies have announced an increase of two cents a gallon in the price of gasoline, effective immediately.

A new radio development to revolutionize broadcasting is predicted, following the non-carrier wave recently invented.

Roderick McKenzie, outstanding figure in organizing the United Farmers of Manitoba, is dead, following a paralytic stroke.

The United States Senate has ratified a treaty with Great Britain concerning the extradition from Canada of persons charged with violating the Harrison Narcotic Act.

Samuel MacDonald, the former British prime minister, and the British parliamentary delegates, who have been visiting Central America, have returned to England.

There will be no change in the hall insurance rates for Manitoba this year, but some slight changes will be made in certain sections of Saskatchewan and Alberta, according to an announcement made by the Hall Underwriters' Association.

Automobile accidents in the United States are increasing at the rate of 2,000 a year, says the Eyesight Conservators Council of America, which believes that defective vision is responsible for a large percentage of them.

Reginald McKenna, chairman of the board of directors of the Midland Bank and former chancellor of the exchequer, states that sterling probably will soon stand at its gold value, because the dollar, under pressure of the surplus gold supply, will have come down to the pound's level.

Chas. Fox, broadcasting stations, there are 18 in Havana alone, more than in any city in the United States.

Advices Young Mothers

Unsinkable Ships

German Engineer Claims to Have Made An Important Discovery

What is claimed to be an invention which renders ships unsinkable was given a trial on Lake Constance recently, according to the Berlin Tageblatt. The inventor, a German engineer named Libbertus, installed the apparatus in a boat with a cargo of 200 kilograms (440 pounds). Libbertus then sank the boat, declaring it would reappear within an hour. This it did. The dispatch adds that details of the invention are not available.

France Had Record Tourist Year

Realized Over Two Hundred Million From Americans in 1923

One hundred and thirty-five thousand Americans left \$292,500,000 behind them in France in 1923, establishing a record tourist year, according to statistics. Only ten per cent came on business, the rest for pleasure. It is reckoned that they spent \$1,500, which seems a moderate estimate in view of the large number of purchases of souvenirs to carry home. The figures for 1924 are not available yet, but it is estimated they are very high.

Suffered With Rheumatism For Several Years

Saskatchewan Man Completely Relieved by Dodd's Kidney Pills

Hundreds of men in Canada have been relieved of their aches and pains by Dodd's Kidney Pills. (Special).—That rheumatism is caused by disordered kidneys and that Dodd's Kidney Pills will relieve it is a fact proven by the case of Mr. John Cheney, a well-known and esteemed resident of this place.

"I have suffered with rheumatism for several years. One box of Dodd's Kidney Pills have given me complete relief. I am happy to be able to say a good word of your pills to all my friends."

It is astounding how many people go on suffering day after day with aches and pains, rheumatism and backaches. They suffer because they are not aware of the fact that they can get relief. Rheumatism is a disease which is the source of the trouble and these pains vanish. Dodd's Kidney Pills are directly on the spot. They heal and strengthen them so that they do their full work of straining all the impurities out of the blood.

Will Sail North Again

Shackleton's Famous Ship, "The Quest," to Penetrate Frozen

Sir Ernest Shackleton's famous exploration ship, "The Quest," sturdy veteran of the Arctic, this year will penetrate the frozen realms of the polar seas. It will carry two hunting expeditions, one to the White Sea by way of Nova Zembla and Franz Josef Land, returning by way of Bear Island and Spitzbergen, and the other to the remote island of Jan Mayen, and an east coast of Greenland. Seal, polar bear and musk oxen will be the principal game sought.

Captain Schielderup, noted northern skipper and sailing master of the Oxford University Arctic expedition in 1923, will be in command of The Quest.

Ex-Kaiser Renews Youth

Former Emperor Wilhelm of Germany has undergone a "monkey gland" operation and looks "younger than the crown prince," the London Sunday Express says. The Express' Paris correspondent quotes a Mrs. Pettivel, an American woman, who spent the holidays at Doorn, as saying that the emperor is as sprightly as a youth, with a beard and moustache no longer.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Saving Strength For South American Visit

Prince expects to have strenuous five months' trip

The Prince of Wales is conserving his energy these days for the strenuous five and a half months' trip to South America and the Argentine on which he starts at the end of March. His appearance at organization dinners and other public functions, which ordinarily take up a great part of his time, have been few and far between since his sojourn in Canada and the United States.

Following his South American trip, the Prince will pay his second visit to Ireland. His first trip to Ireland was as long ago as 1911, when, with the elder Princess Mary, he accompanied the King and Queen to Dublin in the month of July. The occasion of his coming visit will be in celebration of the bicentenary of the Grand Lodge of Free Masons of Ireland, of which he will be initiated senior grand ward.

Increased Duty

The federal customs board decision on garments of French or other manufacture used temporarily as models while in transit through the United States will increase the duty. Value for duty shall not be less than cost to the U.S. purchaser, less deterioration allowance.

Question ten men and nine of them will tell you that they don't get hair but what they are entitled to in this world.

The world membership of the Boy Scouts movement is now nearly 2,000,000.

Mindard's Liniment for the Gripe

CHUBBLAINS

Zam-Buk even cures rheumatism and swelling, bulimia, itching, pain, and all the other troubles of the skin. It is a great healer and a sure cure.

Famine In Russia

Police Shoot and Kill Starving People

The Moscow press is unable to ignore the famine which has engulfed 11,000,000 people in the Southern Ukraine and Lower Volga districts. Reports from the Saratov, Taurin, Astrakhan, Kuznetsk and other districts say a large percentage are eating bark and refuse.

Astrakhan was the scene of a riot when 200 starving people began a fight over possession of garbage cans at the Hotel Europa, which is occupied by local Soviet officials. The police fired upon the crowd, killing five.

Children and Crime

Sending Children Under Eighteen to Prison Is Wrong Method

No one under 18 ought to be sent to prison until other methods have been tried, for there is much truth in the saying that offenders may be classified into those who never consent to go to prison and those who once there, ought never to come out. Certainly there comes a time in the hardened criminal's career when "preventive detention" is justified, and often the wisest thing would be to keep the prisoner after his term is over.—The London Daily Telegraph.

Island Disappears

Considerable loss of life is feared when island off African Coast is submerged

Port Alexander, a small isle in Angola, the Portuguese colony of West Africa, has been suddenly submerged in the sea and has completely disappeared, according to a Lisbon dispatch to the London Sunday Express.

No deaths have been received, but a considerable loss of life is feared, as the islet, which was 4,000 square yards in area, was inhabited by Portuguese and native settlers.

WALKED THE FLOOR FOR HOURS

NERVES WERE SO BAD

Reading

Wherever there are people who are troubled with "dreadful" nervous pain and in Milburn's Heart and Nerve Pills, a remedy that will restore the equilibrium of these deranged centers and bring back the shattered nervous system to a perfect condition.

Mrs. W. W. Aultman, Woodstock, Ont., writes: "After having a severe attack of bronchitis I was left in a very weak, run-down condition. My nerves were all broken up; could not sleep at night, and would have to get out of bed and walk the floor for hours."

MILBURN'S HEART AND NERVE PILLS

I began to feel much better, and after taking a few more boxes I could enjoy my rest as well as I ever did. I always recommend them to all my friends."

For sale at all druggists and dealers; put up by The T. Milburn Co., Limited, Toronto, Ont.

Noisless Airplane Invented

A noiseless airplane, which is expected to prove of great value in night bombing warfare of the future, is said to have been developed by British aviation experts. A noiseless propeller has been developed through ingenious use of gears. The invention also removes one of the main obstacles to airplane passenger service—the great roar of the motors.

Too Many Castles In Germany

Castles in Germany, the former homes of dukes and princes which are now in the hands of the government, have become so numerous that officials are now being asked to sell them. Some have been converted into museums and public buildings, but the majority will remain vacant unless they are purchased by wealthy foreigners.

Mark of Respect In Tibet

In Tibet, respect to a thing or person is shown by always keeping it on one's right-hand side. In passing by religious edifices it is proper always to turn from them from left to right, "clockwise," which is also the direction in which the prayerwheel should be turned. To violate this rule is considered an act of blasphemy.

Cuticura Talcum For Young And Old

Horses Obeyed Orders

Nine Thoroughbreds on Ocean Liner

Two days out from Glasgow, the Anchor Line California was hoisted to white nine thoroughbred circus horses were transferred from improvised stalls on the shelter deck to the top deck, in time for the ship to leave. High seas necessitated the change.

"There was a bulkhead two feet high," said Capt. Blake, "over which the horses had to pass to get to the companionway square. Mr. Joyce would say: 'Now, put your right foot over the bulkhead, and the horses obeyed. They didn't know where they were going and at the entrance to the companionway the inside,' said Mr. Joyce, and in the event horses couldn't have obeyed orders better."

Airplanes Carry Precious Cargo

Quickly Over Belgian Congo

President Jones was part of the cargo of the airplane flying over the 1,100 miles of tropical jungle between Kuchaba, the capital of the Belgian Congo, and Kutanjo, in the interior. No fewer than 25 aeroplanes and hundreds of troops were built in the swamps and jungles around the Congo, providing a continuous chain of ailing grounds. The principal "cargos" on the air route will consist of diamonds, gold and ivory, which will be brought from the interior to the capital in a single day instead of a week as by present transport methods.

Carter Starts Work Again

Everything Sealed in Tomb Found in Egypt

A dispatch to the Egyptian Telegraph from Luxor, Egypt, says the tomb of Tutankhamen was opened in the presence of government officials and members of the antiquities department. The contents of the tomb taken out last year, were handed over to Howard Carter, the Egyptologist. Carter found everything that had been sealed when the tomb was closed remained intact.

The precious pall of sarcophagus, which had been left outside the tomb in a thin wooden shed, however, had deteriorated probably beyond repair.

To Import Danish Hogs

Province of Alberta Is Anxious to Develop Industry

At the recent meetings of the United Farmers of Alberta, the premier of the province, Hon. H. Greenfield, stated that the government proposed to import a number of Danish hogs. It is an effort to develop in Canada hogs which would retain the length and quality of class which had made Danish hogs famous. The government, he said, realized that Alberta could not prosper on agriculture alone, and it was lending every assistance to the development of industry, and the building up of an all-round province.

Old Employees Honored

Every Member of British Dairy Company Received Present

One of the foremost dairy companies of Great Britain has a long service corps connected with it. The members being made up of employees who have been in service of the organization for 30 years.

The corps boasts of a membership of 261 men and 24 women and when the members met recently for a dinner each one of them was presented with a gold watch and silver badge as a certificate of merit. Included were nearly all the directors of the company, and the most humble milk roundsmen.

Too Many Castles In Germany

Castles in Germany, the former homes of dukes and princes which are now in the hands of the government, have become so numerous that officials are now being asked to sell them. Some have been converted into museums and public buildings, but the majority will remain vacant unless they are purchased by wealthy foreigners.

CONTINUE WORK OF IMPROVING STOCKS OF SEED

Saskatoon.—The progress we have made in the past in field husbandry is only a foundation on which to build greater things for the future, declared Prof. Manley Champlin, professor of field husbandry at the University of Saskatchewan in an address on "Looking forward in field husbandry" at the agricultural societies convention. "At the university, we must continue to study the fundamental principles of crop rotation and soil productivity. We must continue to test new varieties of field crops and compare them with the old ones to prevent frauds being perpetrated and to prove the value of really superior productions of the plant breeders are. We must continue to produce elite stocks of seed of the best varieties, giving them every attention that unrelenting toil and thought can give."

"We must keep on trying to develop, through scientific plant breeding methods, varieties that are better for our conditions than any we now have. The future of the field is unlimited. We need a real resistant wheat that will also be resistant to blights of various kinds and that will possess a sturdy straw and good milling quality. That is a large order, but with the wonderful advance that has been made in the science of plant breeding during recent years, it ought to be within the range of possibility. We now have rust resistant varieties of wheat but all of them possess some serious defect. For example: Acme wheat resists rust but it is susceptible to blight; Koda wheat resists rust but lodges easily; Pontiac wheat resists rust but it is of poor quality. Known wheat is very early and does not rust but does not yield as well as the medium or late varieties."

Optimistic Outlook

Conditions Now Better Than At Any Time Since the War
Winnipeg.—"An optimistic outlook is being justified now than at any time since the war," stated Dr. John Bracken in addressing the Manitoba agricultural societies convention. As reasons for his statement the premier cited the improved world conditions on the acceptance of the Dawes reparations plan, the Canadian position in England and the United States consequent on recent elections, the improvement in rates of exchange, making Canada a better field for capital, and the increased purchasing power of the farmer's dollar.

Endorsed Proposal For Trade Relations

British Guiana Will Send Representative To Ottawa Conference
Georgetown, British Guiana.—The commercial interests of British Guiana tendered a reception to Hon. J. Logan, M.P., special Canadian commissioner here, and strongly endorsed his proposal for closer trade relations between this country and Canada. "The invitation conveyed by Mr. Logan from Premier King, of Canada, to send delegates to attend a joint conference to be held at Ottawa next spring was cordially accepted."

Received Thanks From Prince London.—William Phillips, European manager of the Canadian National Railways with headquarters in London, was received by the Prince of Wales at St. James' Palace. The Prince expressed his thanks for the arrangements made for his comfort and convenience on the C.N.R. during his trip in the Dominion last autumn.

Money Makes Berlin Grow
Berlin.—Since the rentenmark was established, Berlin has become a better city in which to live. Such would seem to be the opinion of at least 42,850 Germans who swelled the population of the capital during the first nine months of 1924.

Quickly Relieves Constipation
Don't let constipation poison your blood each year.
If you live and move don't work properly take **CARTER'S LIVER PILLS** today and your trouble will be gone. For details look at the bottle and the box. Don't take any other pills.

Value Of Horticulture

Makes For Permanency of Farm Life in Western Canada

Winnipeg.—"Among chief obstacles to be encountered in agricultural progress on the prairies is the idea of making a fortune rapidly, and then going elsewhere to live," stated Dean W. C. MacMillan, Manitoba Agricultural College, at the annual banquet of the Manitoba Horticultural and Forestry Association here. "Twenty years' observation leads me to believe that prairie farming is too often successful and short, or unsuccessful and discontented. The development of horticulture is among the chief means of overcoming this obstacle. Beauty and comfort in home surroundings with home grown foods, attract those responsible for them to the place where these are produced. With better home-building, of which horticulture is the very heart, agriculture becomes permanent."

C.N.R. Contemplating Branch Line Programme

Question of Western Extensions to Come Before Parliament Soon
Ottawa.—A branch line programme is contemplated by the Canadian National Railway for the forthcoming session of parliament. The particular lines for which the parliamentary sanction will be sought are not yet definitely indicated, but so far as the west is concerned, it is believed that practically all of the routes rejected by the senate last May will be renewed. It will be argued again that the lines are required as feeders for the national system and for development and colonization purposes generally. It is doubtful if some of the eastern projects are revived.

Native Of India May Cause Trouble

Greatly Angered Over Export of Money Says Report
London.—The native extremist papers of India have started a campaign against the wholesale exportation of money, which has reached remarkable dimensions in recent months, according to the Daily Telegraph's Calcutta correspondent, who predicts that this propaganda will arouse angry feeling among the Hindus, millions of whom worship money. "The editorials in the government press, which unless it forbids this 'devilish trade' it will have a terrible responsibility when the consequences of the popular indignation become manifest."

Will Not Alter Rating

Railway Commission Declines Classification of Liquor, Will Classify
Winnipeg.—Application for a reduction in the classification rating of liquors which was made on behalf of the Manitoba liquor commission before the railway commission last November, has been refused, according to advice received by the Canadian Freight Association in Winnipeg. The judgment of the board states: "Until conditions warrant a different classification should stand. The application, therefore, is refused."

Famine Report Exaggerated

Adequate Relief Measures Have Been Taken in Korea
Tokyo.—Seoul, Korea, reports that have been circulated to the effect that 3,000,000 persons here have been famine stricken are greatly exaggerated, according to announcement in government circles. "While admitting the existence of famine conditions in Korea, due to the failure of the rice crop, government officials are inclined to minimize reports of suffering. Adequate relief measures have been taken, it was said."

Settlers For Saskatchewan
London.—A large family named Bradley, belonging to Bedford, Nottinghamshire, is emigrating to Saskatchewan under the government migration scheme. The family consists of 35 members, and takes in three generations, all having had farming experience.

Protects Potato Embargo
Ottawa.—Hon. W. R. Motherwell, minister of agriculture, forwarded a cable to the high commissioner at London, protesting against any proposed embargo being placed on the shipment of potatoes from Canada, and asking for further official information on the matter.

Increase in Wheat Crop
Ottawa.—A cablegram received from the international institute of agriculture in Rome, states that the production of wheat in Australia is 185,000,000 bushels, compared with 125,854,000 last year, and 181,308,000 the average of the previous five years.

Propose Larger Annuity For Dr. Chas. Saunders

Ottawa.—John Miller, M.P. for Qu'Appelle, will propose a resolution this session to provide an annuity of \$1,000 to Dr. Charles Saunders discoverer of Marquis wheat. Mr. Miller considers the \$1,200 upon which Dr. Saunders was retired to be utterly inadequate considering the millions that have been made out of the product of his research.

Grade Wheat for Milling Value

Suggest That Saskatchewan Government Establish Laboratory
Saskatoon, Sask.—A resolution requesting the provincial department of agriculture to investigate the feasibility of establishing a laboratory to study and establish a system whereby wheat might be graded according to its milling value was passed here by the Saskatchewan Field Husbandry Association. "If we cannot continue to produce seed on a scale satisfactory to ourselves we will have to disassociate ourselves from the Canadian Seed Growers' Association and run our own business in our own way," declared Prof. Manley Champlin, secretary, addressing the meeting. Prof. Champlin wanted the association that is now in the process of being organized to be on foot to limit the acreage assigned in each province for elite seed production, to five acres. This prohibitive resolution, he said, would be brought before the C.S.G.A. when it meets in Edmonton during the coming summer.

PAYMENT TO CANADA UNDER THE DAWES PLAN

Ottawa.—Canada will receive five thousand pounds sterling per year less from the annuities payable under the Dawes plan as a result of the agreement signed at the inter-allied financial conference, which provides for the United States being paid 2½ per cent. of all payments, it was stated in official circles here. Generally speaking, the belief is expressed that the whole question has been dealt with very satisfactorily, insofar as Canada is concerned. When the matter was investigated personally by an official of the Dominion Government in November last, the position of Canada did not appear to be at all clear. In the first place, the amount paid for the benefit of the British Empire was very difficult to estimate, on account of the cost of the armies of occupation and the priorities of Belgium and Italy. Furthermore, it was not settled whether the amount received by the United Kingdom, under the German Reparations Recovery Act, would be taken into consideration, and payments made to Canada. This also applied to delivery in kind. Canada receives 4.35 per cent. of all moneys received on behalf of the British Empire, whether paid under the German Recovery Act by delivery in kind, or by direct payment of cash reparations from Germany, as known as the transfer commission at Berlin.

Many Die In Earthquake

Four Villages Destroyed and 140 People Killed in Caucasasia
London.—Four villages have been destroyed, and 140 people killed, in an earthquake at Ardahan, in Trans-Mall from Constantinople. The dispatch adds that 2,000 persons are homeless, with the temperature here is homeless, with the temperature 22 degrees Fahrenheit, below zero. Earth shocks are continuing intermittently.

Must Not Eat Raw Oysters
Chicago.—Eating raw oysters in Chicago henceforth will be punishable by a fine of \$25, Corporation Counsel Busch has ruled. Health Commissioner Nicholas announced he was starting to post warning signs. The state health department has forbidden the eating of raw oysters because of typhoid fever cases which have been traced to eating the bivalves.

High Seed Standard
Saskatoon.—Exhibits this year at the annual provincial seed fair were of an exceptionally high standard and comparison the keenest in years. Some of the Marquis wheat shown excelled the standard of international prize winning seed at Chicago, in the opinion of the judges.

Australian Population 6,000,000
Melbourne.—The Australian population is now approximately six millions, and is increasing at the rate of 2 per cent. annually. The largest city is Sydney with a population of 1,900,000.

Britain's Well-Beloved Actress

Ellen Terry, who became a Dame of the Order of the British Empire, at the New Year's distribution of honors.

Coolness May Result From Soviet Policy

Tension Between French and Russian Governments is Reported
Paris.—That there is some tension between France and the Russian Soviet Government, was indicated by Premier Herriot, when he told reporters that "if the Soviets continue to carry out a Soviet policy in France, coolness might result." M. Herriot said that the instructions carried to Moscow by Jean Herbet, the new French ambassador to Russia, contained this information to the Soviet Government. The tension arises mainly from a speech made by M. Zislinoff, president of the Third Internationale, declaring to the French Communist party the policy it should follow.

Share-selling Sharks

Protection Sought For People of Saskatchewan Against Worthless Companies
Regina.—Protection is being sought for the people of Saskatchewan against share-selling sharks employed by worthless Dominion companies operating under Dominion charters. The Saskatchewan Legislature unanimously endorsed a resolution authorizing the Provincial Government, in co-operation with other Provincial Governments, to continue to urge upon the Dominion Government the necessity for asking the Parliament of Canada to pass legislation giving the provinces power to control and regulate within their own borders the sale of shares of all companies.

Begins To Regret Treaty

Australia Thinks Arrangement With New Zealand Too One-sided
Melbourne, Australia.—Although the reciprocal tariff with Canada was received first with enthusiasm and was ratified by the Federal Parliament by a vote of 35 to 7, the feeling in business circles now is less hospitable. The tariff board reported as follows: "The proposals are admittedly of greater immediate benefit to Canada than to Australia. Rates and currencies are the only lines in which we can expect to do extensive business. The one great conclusion, one which Canada is very anxious to have, is the open market in Australia for new wool."

No Money to Waste
Toronto.—Declaring that there were many demands on the Federal Government for improvements in various parts of the country, Hon. Dr. J. H. King, minister of public works, told a delegation of city officials, harbor commissioners and city members of parliament that consideration would only be given this year to works of the greatest urgency.

Cattle Disease Spreads
Malmo, Sweden.—The epidemic of the head and mouth disease in Skaneateles, Sweden, has already caused the slaughtering of 10,000 head of cattle, involving losses amounting to \$2,000,000. A number of Sweden's most valuable prize-breeding animals have become victims of the disease, and all export of live cattle is prohibited.

Furthering Empire Commerce
Ottawa.—Improved methods of marketing products from all parts of the Empire in Great Britain, is expected to be the basis of deliberations by the imperial economic conference, to be reconstituted shortly. Canada is expected to receive particular benefit in trade expansion from the proposal.

Saved The Teeth
Edmonton.—A catfish in a tumbler-shaped cage of iron, a set of false teeth was discovered in the debris of the Syndicate Block by a tenant who was driven out by a night fire which completely demolished his suite in the top floor a few days ago.

Arrange Anglo-French Debt Conference

London.—An Anglo-French debt conference will meet in February or March, according to an Exchange Telegraph Company message from Paris. If the conference should be held, it would mark Great Britain's acceptance of the United States thesis that the various war debts are subjects best settled between the creditor and the debtor, and not through round table conferences of all the nations concerned in the war against the central powers.

Loses Life In Storm

Giri Mountain Climber at Denver Overtaken By Blizzard
Denver, Colo.—An effort to scale the east face of Long's Peak in unfavorable weather, a previously unaccounted for climber, lost his life at Mt. Agnes Valley, secretary of the Denver Chamber of Commerce, Interprovincial mountain climber, and daughter of F. C. Valle, retired Denver millionaire. Herbert, Sorling, member of a search party, was lost in seeking Miss Valle, and other parties plunging through snow drifts in the face of a raging blizzard and temperature of 50 degrees below zero in search for him had little hope of finding him alive.

Canada's Financial Outlook

President of Bank of Commerce Holds Optimistic View
Toronto.—"Surely we may look for a gradual, if slow, improvement and we confidently hope that its coming is not to be much longer deferred," said Sir John A. MacCallum, president of the Canadian Bank of Commerce, summing up his opinion of Canada's financial and business outlook for the year at the annual meeting of the shareholders of the bank here. Sir John called attention to the fact that commercial failures in Canada had decreased, there had been a great harvest and the "maladjustment of the farmers' position had been largely corrected."

BETTER DAYS FOR THE FARMER ARE IN SIGHT

Saskatoon, Sask.—More diversified farming, lower production costs, more vigorous regard for the sanctity of contracts, and the maintenance of credit, and respect for constituted authority, were emphasized by President N. B. Williams of Abernethy, at the opening of the annual convention of Saskatchewan Agricultural Societies here, as factors which ultimately will help to govern the business methods of western farmers. Mr. Williams, in a temperate review of the situation of agriculture in the province, mentioned the improved financial condition in general, as evidenced by the returns to farm and insurance companies by their debtors. While asserting the ability of Western Canada to experience a financial metamorphosis almost in one crop season, Mr. Williams advocated the adoption gradually of a system of farming which would to some extent make the farmer less dependent upon the vicissitudes of weather. As regards the various economic conferences held during the past year, Mr. Williams described one as a sort of controversial merry-go-round, but admitted that the September conference with the government had done much to clear the air.

New Lieutenant-Governor
Ottawa.—James Robson Douglas, Amherst, N.S., is appointed lieutenant-governor of Nova Scotia in succession to Hon. MacCallum, whom he resigned. The appointment of Mr. Douglas dates from the 21st of this month.

Parasites Affect Livestock
Saskatoon.—The extent and variety of parasites infesting livestock, as demonstrated by the research carried on at the new laboratory devoted to the investigation of animal diseases was another proof of the value of the research work carried on at the university to the agricultural industry of the province. It was stated that the extent to which these parasites were affecting young livestock was much greater than previously realized.

FREE A Farm Library
One would often give much to be able to lay his hands on good reading material for farm, preparing a report, laying hens or for doing a hundred and one other kinds of work about which he has read. A proper system of preserving and filing pamphlets would meet such a need at all times. Such a system has been devised by the Department of Agriculture and it is fully explained in THE PUBLICATIONS INDUSTRY BOOK, in which the pamphlets of the Department are listed. R. R. N. Name _____ Post Office _____ Province _____

EQUALIZATION OF FREIGHT RATES IS DEMANDED

Regina.—Declaring that the west was "footing the bill" for the east, and not the east for the west in the matter of freight rates, Allen D. Fickel (Government, last fall), moved a resolution, which was unanimously adopted, urging the Saskatchewan Government to secure statutory provision for the equalization of freight rates and also the equalization of rates affecting different points in the province.

Chas. McDonald (Government, Prince Albert) in seconding, declared that under present conditions western wheat fields were of more value to the United States than to Western Canada.

W. G. Baker (Government, Moose Jaw) suggested that as a basis for the complete revision of freight rates, the west should agree to exchange the Crow's Nest Pass agreement for another statutory agreement protecting Western Canada against excessive freight rates and insuring fair and reasonable rates to all parts of Canada. The resolution reads: "That this legislature is of opinion that the equalization of freight rates throughout Canada is impossible without statutory provisions for maximum rates in those parts of Canada in which rates are not controlled by competitive water transportation rates; and further: "That the government of Saskatchewan should continue its efforts to insure such statutory provisions and also the equalization of rates affecting different points within the province."

Canada Needs Population

McGill Professor Says Dominion Must Advance or Meet Disaster
St. John, N.I.—"That the economic salvation of Canada was to be found only in the influx of men and money into this country as part of a scheme which he described as the economic integration of the British Empire, was a statement made here by Professor Stephen Leacock, of McGill University, Montreal, in an address before the Canadian Club. Saddled with a railway and manufacturing system capable of satisfying the needs of 25,000,000 people, the Dominion had but one course and that was to go ahead. He urged that the Dominion was insisting too much on the Shibboleths of independence and semi-independence, and that it was time to begin talking of arms-length, the British capitalists who could part the country on its face. Economy in the Dominion, provincial and civic affairs was absolutely necessary he declared."

May Become Separate Nation

Bill to Come Before Parliament of South Africa
London.—Some "miftings" have been aroused here by a cablegram from Pretoria stating that the government of the Union of South Africa intends to introduce a bill in the South African Parliament dealing with the question of South African nationality, and creating a South African flag. The cablegram adds that it is believed the proposed bill lays down the principle that a person who becomes a British subject does not necessarily become a South African citizen, and therefore, if the bill becomes law it will create a "South African nationality."

Parasites Affect Livestock
Saskatoon.—The extent and variety of parasites infesting livestock, as demonstrated by the research carried on at the new laboratory devoted to the investigation of animal diseases was another proof of the value of the research work carried on at the university to the agricultural industry of the province. It was stated that the extent to which these parasites were affecting young livestock was much greater than previously realized.

Canadians Make Pilgrimage to Holy City

St. Peter's, Rome.

Canadian response to the Papal Bull promulgating the "Holy Year Universal Jubilee" is, according to reports of transportation companies operating between this continent and Europe, assuming unexpected proportions. Canadian Pacific officials report that applications for accommodation on the "S.S. Minnedosa," chartered by the Holy Tours Incorporated to carry Holy Year pilgrims to Bordeaux this summer, are steadily pouring in from all over Canada and the United States and that the Canadian contingent will be accompanied by many distinguished members of the episcopate, clergy and religious orders. His Eminence Cardinal Louis-Natale Bégun, of Quebec, has signified his intention of sailing on the Minnedosa as have several other high dignitaries of the Church in Canada.

The opening rites of Holy Year have already been performed and the Papal Bull, formally announcing its commencement and inviting Catholics the world over to assemble in Rome has been issued. The purpose of the Great Jubilee as set forth in the Papal Bull are to live the year in expiation of sin, and to achieve peace through the unity of all charity. The opportunities to preside Pentecostal convocations afforded them by the Pope XI, are powerful factors in many to visit the Holy City.

Canada's Pacific S.S. Minnedosa which will carry pilgrims from Canada in May.

His Eminence Cardinal Bégun, who will head the Canadian Pilgrimage to Rome, left St. Montreal and Quebec on May 8 next on board the Minnedosa.

Quebec on May 8th next, one of the first sailings from the St. Lawrence season for Bordeaux where the pilgrims will disembark and continue their journey by rail, stopping at Lourdes, Carcassonne, Marseilles, Nice and Genoa en-route to Rome. This vessel has accommodation for seven hundred passengers and in view of the special low rate quoted for the tour, it is expected that the Minnedosa will carry a capacity passenger list.

Although born in Lévis, Quebec, in 1840, Cardinal Bégun is well known in Rome as it was there in 1865, that the present head of the Roman Catholic church in Canada was ordained to the priesthood. In 1888 he was created bishop of Chicoutimi and, in 1903, after three years, Archbishop of Quebec and coadjutor of His Eminence Cardinal Taschereau. In 1904 he took over the administration of the diocese of Quebec, being elevated to the Cardinalate in 1914.

NEW BOOK MAKES ROMANCE OF HISTORY

Tells Story of Canadian Pacific Railway and Building of Dominion

A facetious American once referred to the Canadian Pacific Railway as "Canada on Wheels." Great as it is, the Canadian Pacific would be the last to appropriate such an appellation. It can be truthfully said, however, that to understand the recent history of the Dominion one must know that of the Canadian Pacific. Now at last comes a volume, well illustrated with photographs, which presents that history in its most palatable form—that is, in a form emphasizing the human factor. "The Romance of the Canadian Pacific Railway," by R. G. MacBeth (the Ryerson Press, Toronto, \$2.50).

The author, who has a number of historical works to his credit, is singularly well equipped. Apart from his literary skill, he has the advantage of having lived in the Canadian West all his life. He has always been in close touch with the Canadian Pacific, though he is careful to point out that he has never been connected with it and has written and published his book independently.

Mr. MacBeth here traces the amazing story of the company's development into the world's greatest transportation system; of the steamships, of the telegraph and express; colonization; irrigation; hotels and banquets; of its war service and of all its activities, with a wealth of interesting detail which illustrates the brilliant administrative and organizing ability of its executives.

Canadians should be proud, as Mr. MacBeth reminds them, that their country approved the construction of this pioneer transcontinental when the population was only 4,000,000, though the United States had not dared to undertake a similar road till she had ten times that number. The frightful difficulties, political, technical and financial, through which the company's sponsors and founders fought their way to victory are well summarized. For instance, it is recalled that sections of the line north of Lake Superior cost \$500,000 a mile to build, and a mule team east of Winnipeg swallowed seven times before it was conquered.

author shows that the triumphant accomplishment of the work was especially creditable because it took place in a period of immense depression.

Sir William Van Horne, general manager and later president, that man of tireless energy, vision and determination, is the central figure in the volume and there are many anecdotes illustrating his versatile character. But all the other great men of the company—Mount Stephen, Shaughnessy, Beatty, Angus and a host of others—receive their due. Lord Shaughnessy's fine words: "The shareholders and directors of the company have always been impressed with the idea that the interests of the company are intimately connected with those of the Dominion and no effort or expense has been spared to help in promoting the development of the whole country" are amply backed by the company's deeds. And the author makes a statement which is very a propos when he says: "The country and the railway, in such a close as this, must stand or fall together. Each is necessary to the prosperity of the other. Hence for one to attempt the destruction of the other is practically a roundabout but effective way for that one to commit suicide."

PRISONERS SAY RELIGION FAILS

Surveys among prisoners in the Los Angeles county jail indicate that there is something wrong with present educational and religious methods. In the opinion of Raymond I. Turney, director of the Los Angeles crime commission. He expressed this view at a recent meeting of the Southern California academy of criminology.

Seven per cent of the inmates of the county jail, Mr. Turney says, were college graduates as against 6 1/2 per cent in ordinary civil life; 12 1/2 per cent of the prisoners had college training, 45 per cent were high school graduates compared with 25 per cent outside the walls.

All the prisoners agreed, added Mr. Turney, that there had been a lack of moral training and a defect of character building training in the schools, and that the same thing was true of the religious; a majority of which were represented.

Mr. Turney declared that most of the prisoners concurred in the belief that habitual criminals should not be allowed to bring children into the world. All believed in punishment, he continued, but favored institutions where prisoners could be employed in producing some commodity.

Described as the finest coastal vessel in the world, the "Princess Kathleen," recently launched by Lady Mount Stephen, widow of the late Lord Mount Stephen, a former president of the Canadian Pacific Railway, left Glasgow on January 15 on her ten thousand mile journey through the Panama canal to join the Canadian Pacific's fleet of coastal steamships plying the seaboard of British Columbia.

A historic pageant of some proportions is being planned by the Calgary exhibition board for this year, its object being to commemorate the fiftieth anniversary of the founding of the city by the old North-West Mounted Police in 1875. In the period, which has since elapsed, Calgary has grown to be an extremely busy, modern city, having a population of 75,000. A stampede similar to those held in Calgary in previous years is also planned for this summer.

The itinerary of the "All Blacks," New Zealand's wonderful rugby team, hitherto unbroken, in their tour of Canada, was announced by the Canadian Pacific recently. Landing at St. John, N.B., on January 31, from the company's steamship "Montaurier," the team will proceed across the Dominion via Canadian Pacific lines. They will make short stays at Montreal, on February 1; Toronto, February 2; Niagara Falls, February 3; Calgary, February 6; Banff, February 7-9; Vancouver, February 10-21; and sail from San Francisco on the 26th. Calgary is giving them a ball and dance at the Palliser Hotel, they will take part in the Banff winter carnival, and will play teams from Vancouver and Victoria while on the coast.

Very heavy summer travel is anticipated by the Canadian Pacific Railway during 1925, especially to conventions on the Pacific coast of Canada and the United States, C. B. Foster, passenger traffic manager of the company, announced recently. Canadian and American railroads expect 150,000 persons to attend these conventions, some of which will be very large. At least thirty westward bound special trains, and as many eastward bound, will be provided by the Canadian Pacific to handle the delegates. Mr. Foster stated, and Banff and Lake Louise expect great seasons, as so many of the travellers will stop off at those famous mountain resorts. There will also be a very heavy movement to conventions in eastern Canada and the eastern United States.

Here and There

The following apt comment on the careless motorist and his ultimate fate comes from the Boston Transcript:

"If a freight train at a crossing
"Hits an auto fair and square
"There's the freight train—Where's
"The auto?
"Echo answers 'Where?'"

Trees at the rate of 30,000 a day have been planted by farmers in Western Canada during the last 20 years, according to a report of the Federal Department of Agriculture. A total of 150,000,000 young trees, the report shows, has been distributed to farmers in that section in 1905.

Canada has entered into negotiations with Germany for a trade agreement which will give her the benefit of the most favored nations agreement. Exports to that country very nearly doubled during 1924 and at the close of the year Germany was practically in the position of being Canada's third best customer.

A co-operative shipment of poultry to New York City, encouraged and handled by the Dominion Poultry Service, Alberta branch, brought good results. The shipment, consisting of two refrigerated carloads of turkeys and the shippers received 25 cents a pound for their birds, the New York selling price being 41 cents a pound.

Among the interesting books of the season is "Canada's Great Highway; from the First State to the Last Spike," by J. H. E. Serretan, C.E., (published by Thorburn and Abbott, Ottawa). Dealing with the early history of the Canadian Pacific Railway, the volume contains many reminiscences of life in construction days as experienced by the author, who was a member of the company's engineering staff.

HEAD OFFICE - - MONTREAL

A Statement of Remarkable Progress

Extracts from Directors' Report

Your Directors present their fifty-fourth Annual Report with unusual satisfaction. The rapid expansion of operations, and the steady upbuilding of resources, which have so markedly characterized the Company's transactions in previous years, have continued during the past twelve months, and at a greatly increased rate of progress.

..... These figures (herewith quoted) show the growth which has taken place in the volume of the Company's operations, and in its resources. The figures as to profit-earning power and financial strength are even more impressive.

As to profits actually paid, the sum of \$6,681,652.49 has been disbursed during the year to policyholders under this heading.

As to provision for the future, the Company's position has been materially strengthened in all directions.

There has been a further upbuilding of the life policy reserves. Heretofore policies issued prior to 1903 have been valued on the basis of assuming three and a half per cent interest, as the discounting rate for the Company's obligations, but this year the entire life assurance contracts have been valued at three per cent, the extra amount thus set aside being \$1,111,692.

There has also been a strengthening of the Annuity Reserves. Recent investigations have shown a progressive increase in the average lifetime of annuitants. A special annuity reserve of \$750,000 has this year been set up beyond the amount required by the Government standard.

The Company's Head Office and branch buildings and other real estate have been written down by \$750,000.

The Contingency Reserves have been strengthened by the addition of \$4,000,000 taken from the earnings of the year, \$3,000,000 of this amount going to the fund to provide for possible fluctuations in the market value of our securities, raising that fund to \$5,000,000, and \$1,000,000 going to General Contingencies account, raising that to \$2,500,000. These contingency accounts thus amount now to \$7,500,000.

After making these heavy allocations, the undivided surplus has yet been increased by \$4,234,490, bringing it to a total of \$22,107,358. The Company is, of course, in a position to increase its already generous scale of profits to policyholders, and your Directors have pleasure in announcing, for the fifth year in succession, that such an increase will be made.

While many factors have contributed to this remarkable showing, the most noteworthy has been the large earning from investments. As has been mentioned in previous reports, it has for many years been the policy of the Company to invest in long-term bonds and similar choice securities, in order that by this means the high rates of interest then prevailing as a result of the abnormal conditions produced by the war, might be projected into future years. This policy is now bearing fruit. Current rates of interest, though still very satisfactory, are materially lower than those of former years, and as a consequence there has been a marked rise in the quotations for most of the securities owned by the Company. During the past year some of these increased values have been capitalized by sales, and a net profit of \$2,891,250.48 has been realized from this source. In addition there has been an increase of \$6,251,377.69 in the market value of the securities still held. Although most of this increased value is undoubtedly permanent, and due merely to the readjustment of interest rates to a more normal basis, it will be noted that the Company has carried \$4,000,000 of the amount to contingency accounts, as already explained.

The rate of interest earned during the year on the mean invested assets has been 5.33 per cent, exclusive of profits from sales. This is a substantial increase over the rate of the previous year, and has resulted from our having realized on some of our holdings of government and other bonds which had risen to high figures, the proceeds being then reinvested in securities yielding better returns.

1924

ROBERT DRINNAN MADE GOOD

The following is taken from the Ardrossan (Scotland), Herald:

There are other paths to success in Canada than passes through the farm, as is attested by the many brilliant, inspiring, but oft-times unwritten life stories of Canadian immigrants, who have found fame and prosperity along every line of the Dominion's many-phased activity. The development of Canadian finance and business, mining and the lumber trade, fishing and the fur industry, has been wrought largely at the hands of immigrants, and the history of these prosaic appearing industries furnish the most romantic reading, and are replete with stories of human interest testifying to the wide latitude of Canadian opportunity when brought into proper combination with personal attributes and intelligent application.

One of these engrossing stories is that of Robert G. Drinnan, whose name is a familiar and honored one in mining circles in the Canadian West, and in fact, throughout the Dominion.

As an individual he has without doubt been more responsible than any other for the development of the coal industry of Western Canada, the progress of which is manifest in a very concrete way in the growth of production in Alberta from

811,000 tons in 1900 to 7,000,000 tons in 1923, and from a purely domestic sale to the export of more than 2,000,000 tons outside of the province. Just to have been the largest single agency in bringing this natural development about is sufficient honor for one man's lifetime, and the name of Robert G. Drinnan stands high among those honored individuals who have aided in the development of the raw resources of the Canadian West.

Though he may not be considered an outstanding wealthy man, he is prosperous, and what is more, contented and satisfied. His object has never been the aggregation of personal wealth. His success in life is the greatest of all successes, because he has directed his energies, and lent all his capabilities, toward a national and Dominion prosperity rather than along selfish lines. No one in Canada holds more elevated and influential positions in the particular line of work he selected for himself, and this is the accomplishment of 35 of his total of 53 years.

Mr. Drinnan was born in Linlithgowshire, Scotland, on the 12th of October, 1872. At the age of 16 he became an apprentice mining engineer in Glasgow, where he remained from 1888 to 1894. He apparently had no doubt about his life work, and once turning his mind to mine

engineering he did not swerve from it. He completed his apprenticeship with a thoroughly equipped knowledge of his profession, and when this period was over, went to work in coal mines in the southern area of Yorkshire, where he spent three years from 1894 to 1897.

In the later months of 1897, he came to make a study of Canada, and was impressed by its wealth of undeveloped mineral resources, becoming particularly interested in the vast coalfields in Western Canada, upon which some attention was being directed, and some exploitation taking place at the instance of the Canadian Pacific Railway. He decided that the future held greater opportunities for his profession in the Canadian West, and in the beginning of 1898 he sailed for Canada.

In the first place he travelled across Canada to the Kootenay district of British Columbia, where he secured work in the metalliferous mines and stayed for the remainder of 1898, going at the beginning to the following year to Vancouver Island. Here, at Nanaimo, he was engaged as a mine surveyor, and remained until the end of 1901. He then became superintendent of Fernie mine of the Crows' Nest Pass Coal Co., which position he held until 1907, leaving to take the position of man-

ager of the Hosmer Mines, Ltd., of the Canadian Pacific Railway. From 1909 to 1915 he was engineer for the North Alberta Coal Syndicate, and following that was the manager of the Hillcrest Collieries, and then for a year, general manager of the Cadomin Coal Co.

At the present time Mr. Drinnan is managing director of the Mountain Park Collieries, Ltd., managing director of the Luscar Collieries, Ltd., director and consulting engineer of the North American Collieries. For the past seven years he has been established in Edmonton as consulting engineer, and has been largely instrumental in the opening up of the big bituminous area of Northern Alberta.

For himself, his make-up is largely that of the man who has made an outstanding success of his life and reached the supreme degree of satisfaction through the knowledge that his efforts have benefited his country and his fellow man rather than tended towards personal aggrandizement. He is of a most genial disposition, and has created a reputation in labor circles for his peculiar ability in equably dealing with his workmen and for the faculty of drawing able lieutenants and subordinates about him. In every respect his life has been an outstanding success. He has given to Canada as much as Canada gave to him.

"Next door to the Canadian Patent Office"

A Romance of the Spanish Main

CAPTAIN BLOOD

RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini.

"CAPTAIN BLOOD," a Vignette picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a young Irish physician, is wrongly condemned as a rebel against King James and is deported to Bridgetown in Barbadoes. There he is purchased as a slave by Colonel Bishop, military commander, at the behest of Arabella, the Colonel's niece. A Spanish galleon, the Cinco Ligas, under command of Don Diego de Espinosa y Valdes, captures the city. While the Spaniards sack the city, Blood sends Mary and Arabella back to the city to safety. He leads his fellow rebels-convicted on board the ship and captures it. Colonel Bishop goes on board and Blood kills the military commander as hostage while the ship sails out of port and sends Bishop over the gangplank. Don Diego, taken prisoner, is told by Blood to sail the ship to Curacao, a Dutch settlement, in return for his liberty. Jeremy Pitt, who had studied navigation, suspects Don Diego is betraying them.

CHAPTER XI—Continued

He rose, relinquishing the Spaniard to his men. "Make him fast," he bade them. "Truss him, wrist and heel, but don't hurt him more than much as a hair of his precious head."

Captain Blood regarded him steadily out of a face which, if impassive, had paled under its deep tan. "About the prisoner, clamsant, infuriated, ferocious, the rebel-convict snarled, at most literally 'at his heels'."

"Wait," Captain Blood imperiously commanded, and turning on his heel, he went aside to the rail. As he stood there deep in thought, he was joined by Haghorpe, Volstrout, and Oglio the gunner. In silence they stared with him across the water at that other ship.

"Is less than half-an-hour," said Blood presently, "we shall have her about our ears, sweeping our decks with her guns."

"We can fight," said the one-eyed giant with an oath.

"Fight!" sneered Blood. "Under-named as we are, mauling a bare twenty men, in what can we do to fight? No, there would be only one way. To persuade her that all is well aboard, that we are Spaniards, so that she may leave us to continue on our course."

Oglio, with a bent for sarcasm, interposed a suggestion bitterly.

"We might send Don Diego de Espinosa in a boat manned by his Spaniards to assure his brother, the Admir-

al, that we are all loyal subjects of his Catholic Majesty."

"Dead! ye've said it. He doesn't fear death, this damned pirate; but his son may make a different view. Fillip piety's mighty strong in Spain. He swang on his heel abruptly, and strode back to the knot of men about his prisoner. "Here!" he shouted to them. "Bring him below."

In the wardroom that three stern chambers were in position, loaded, their muzzles thrusting through the open ports, precisely as the Spanish engineers had left them.

"Here, Oglio, is work for you," said Blood as the gangplank came thrusting forward through the throng of gaping men, Blood pointed to the middle chamber: "Have the gun hauled back," he ordered.

When this was done, Blood beckoned those who held Don Diego.

"Lash him across the mouth of it," he bade them, and whilst, assisted by another two, they made haste to obey, he turned to the others. "To the roundhouse, some of you, and fetch the Spanish prisoners and your Dyke, go up and bid them set the flag of Spain aloft."

Don Diego, with his body stretched in an arc across the cannon's mouth, legs and arms lashed to the carriage on either side of it, eyeballs rolling in his head, glared maniacally at Captain Blood. A man may not fear to die, and yet be appalled by the form in which death comes to him.

Captain Blood vouchsafed him a malignant smile, before he turned to meet the fifteen manacled Spanish prisoners. From amongst them a comely, olive-skinned stripling, distinguished in bearing an apparel from his companions, started forward with an anguished cry of "Padre!"

Writhing in the arms that made haste to seize and hold him, he called upon heaven and hell to avert this horror, and lastly, addressed to Captain Blood an appeal for mercy that was at once fierce and pitiful.

Recovering the cry of "Padre!" which he had approached his task, the cynicism essential to its proper performance, Blood commanded Oglio to kindle a match and remove the leaden apron from the neck-hole of the gun that bore Don Diego. "Then, as the younger Espinosa broke into intercessions mingled with imprecations, he wheeled upon him sharply.

"Peace!" he snapped. "It is your father's treachery that has brought us into this plight and delivered us into risk of capture and death aboard that ship of Spain. Just as your father recognized his brother's flagship, so will his brother have recognized the Cinco Ligas. So far, then, all is well. But proceed the Encarnacion will be sufficiently close to perceive that here all is not as it should be. Sooner or later, she must guess or discover what is wrong, and then she will open fire or lay us board and board. Understand this clearly: to the first shot from the Encarnacion this gun will fire the answer. I make myself clear, I hope?"

"But, name of God, how should it be clear," young Espinosa cried. "Can you avert the shot? If you know the way, and if I, or these, can help you to it in Heaven's name let me hear it."

"A fight would be averted if Don Diego de Espinosa were to go aboard his brother's ship, and by his presence and assurances inform the Admiral that all is well with the Cinco Ligas. But Don Diego cannot go on board, because he has a slight touch of fever—shall we say? But you, his son, may convey all this and some other matters to your father's home to your uncle. You shall go in a boat manned by six of these Spanish prisoners."

"A distinguished Spaniard delivered from captivity in Barbadoes by your recent raid—will accompany you to keep you in countenance. If I return alive, and without accident of

any kind to hinder our free sailing hence, Don Diego shall have his life, as shall every one of you. But if there is the least misadventure, he it from treachery or ill-fortune—I care not which—the battle as I have had the honor to explain, will be opened on our side by this gun, and your father will be the first victim of the conflict."

Don Esteban gazed wildly a moment upon the shoulder of his father. But his father remained silent. Something like a sob escaped the boy.

"I . . . I accept," he answered at last, and swung to the Spaniards. "And you—you will accept too," he insisted passionately.

CHAPTER XII.

Don Pedro Sangre.

The Cinco Ligas and the Encarnacion, after a proper exchange of signals, lay hove to within a matter of a mile of each other, and across the intervening space of gently heaving, sunlit waters sped a boat from the former, manned by six Spanish seamen and bearing in their stern sheets Don Esteban de Espinosa and Captain Peter Blood.

She also bore two treasure-chests containing fifty thousand pieces of eight. Gold has at all times been considered the best of testimonies of good faith. Blood carried further a bulky package addressed to a grandee of Spain, heavily sealed with the arms of Espinosa—another piece of evidence hastily manufactured in the cabin of the Cinco Ligas. Up the ladder went Don Esteban closely followed by

Up the ladder went Don Esteban closely followed by Captain Blood.

Captain Blood. In the waist stood the Admiral himself to receive them a handsome, self-sufficient man, very tall and stiff, a little older and grayer than Don Diego, whom he closely resembled. He was supported by four officers and a fair in the black and white habit of St. Dominic.

Don Miguel opened his arms to his nephew, whose lingering panic he mistook for pleasurable excitement.

"But where is my brother? Why has he not come, himself, to greet me?"

"My father is afflicted and denying himself that honor and pleasure. It is a little fever, the result of a slight wound taken in the recent raid upon Barbadoes, which he claimed in this gentleman's happy deliverance."

"Nay, nephew, say," Don Miguel protested with ironic repudiation. "I can have no knowledge of these things. I have the honor to represent upon the sea His Catholic Majesty, who is at peace with the King of England. Already you have told me more than it is good for me to know." But he winked into the twinkling eye of Captain Blood. "But since Diego cannot come to me, why, I will go across to him."

(To be continued.)

Building New Dirigible

U.S. Government Plans Three-day Air Run, Detroit to London

A new type of rigid metal dirigible is to be made for the United States Government at an automobile plant in Dearborn, Mich., according to an announcement from the aircraft development corporation.

Officials of this corporation said that this is the initial move in a plan to establish a three-day passenger service between Detroit and London, England.

The metal ship will have a "skin" of special duralumin plates, which, although only eight one-thousandths of an inch thick, will be six times stronger than the present fabric covering of dirigibles. It will be both fireproof and weatherproof. It is claimed the ship will be durable and permanent in structure beyond anything heretofore attempted. It will be 150 feet long and 53 feet in diameter.

Skull Of Missing Link

The skull of the missing link, which scientists found in Beuchuanaland and dubbed "Australopithecus Africanus" probably is 5,000,000 years old. This estimate is made by Professor Raymond Dart of Witwatersrand University, one of the discoverers of the skull.

The standard remedy for 25 years. Five "SPOHN'S" for Don Diego. "SPOHN'S" is sold in two stores at drug stores. Write SPOHN, CO., Galtway, Ont.

May Again Use Windpower

Making Big For Former Prestige Through German Invention

Wind power has always been rather effective in both national and international politics, but industrially it suffered a decline with the advent of steam. Now, with fuel and labor costs at high levels, it is making a surprising bid for its old prestige.

The experience of Dr. Flettner with the combination of wind and auxiliary engine power have been apparently so successful that the only serious defect suggested by the critics of the ship which he built in Germany is that the huge masts may prove far from seaworthy.

Now comes another German inventor—a retired major, who has been a student of aerodynamics for more than twenty years—with a fourteen horsepower aero-dynamo, which, mounted on a thirty-foot concrete mast, can supply enough electricity to meet the needs of a good-sized farm. The device itself is described as a hood-like structure from which protrude four wings mounted on ball-bearings. Ingenious wind brakes have been devised which check the speed in a high wind.

The "aero-dynamo" has already shown sufficient merit to win for it a series of exhaustive tests by the British ministry of agriculture, which are now in progress. It would be strange, indeed, if, after more than 100 years, the wind which furnished most of the mechanical motive power prior to the nineteenth century, should gain a new effectiveness in the twentieth.

"Oh, mamma," exclaimed little Edwin, as he made his first close inspection of an automobile. "This wagon has got rubbers on to keep its wheels from getting wet."

Vitamins Are Just Sunshine In Food

Students Say Great Mystery On Verge Of Solution

Just what the sun's rays mean to food the vitamin students have been telling in England. Here is the latest London comment on their observation. F. J. in the Daily Mail observes:

The great vitamin mystery is on the verge of solution. For twelve years scientists have been trying to locate what they believe to be the most important factor in food, and at last they are able to announce what is almost their first positive piece of information—that vitamins are part and parcel of the sunshine, the actual product of the sun's rays playing upon green vegetables and other food substances grown in the open air.

Vitamins are not a food, alone they cannot nourish yet without them all foods are useless. They cannot be seen or handled, for they wear a cloak of invisibility like the Thief of Bagdad, and, like the Thief, too, they advertise their presence only by their achievements.

LITTLE HELPS FOR THIS WEEK

This secret is with the righteous—Prov. III, 32.

Ah! If our souls but pulse and swing like the pendulum in its brass ring. Ever level and ever true. To the toll and the task we have to do. We shall sail securely and safely through The Fortunate Isles.

—Henry Wadsworth Longfellow

The desire to do right, the will to do right are not of ourselves, but of the Lord. He stands ready to give all these in their fulness to all who will receive them.

—Theodore Parsons.

A letter of introduction was handed by an actor to a manager. It described the presenter as an actor of much merit, and concluded:

"He plays Macbeth, Hamlet, Shylock and billiards. He plays billiards best."

Some diseases give immunity from another attack, but rheumatism and lumbago (which is really muscular rheumatism) work just the other way. Every attack invites another.

There is scarcely any disease which physicians find more difficult to treat successfully than rheumatism. Long study, however, has shown that the seat of the disease is in the blood. And so long as the blood is kept pure and rich, there need be no fear of a return of the trouble.

That is why Dr. Williams' Pink Pills has proved successful in thousands of cases of rheumatism and lumbago. These pills enrich the blood and enable it to throw off the poisons of the disease. And so long as the blood is kept pure and rich, there need be no fear of a return of the trouble.

Amie Wright, Woolchester, Alta., says: "I was a sufferer from rheumatism for six years and most of that time my life was one of misery. I tried several doctors but never got more than temporary relief. The trouble seemed to affect my whole system. Finally I was advised to try Dr. Williams' Pink Pills and through these I found complete relief. I am strongly recommended Dr. Williams' Pink Pills to anyone suffering from this trouble."

TO EXPECTANT MOTHERS

Letter from Mrs. Ayars Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Spring Valley, Sask.—"I took the Vegetable Compound before my last confinement when I got to feeling so badly that I could not sleep nights, my back ached so across my hips, and I could hardly do my work during the day. I never had such an easy confinement and this is my sixth baby. I read about Lydia E. Pinkham's Vegetable Compound in the 'Farmer's Magazine' and wrote you for one of your books. 'We have no druggists in our town, but I saw your medicine in T. Eaton's catalogue. I am a farmer's wife, so have all kinds of work to do inside and outside the house. My baby is a nice healthy girl, who weighed nine pounds at birth. I am feeling fine after putting in a large garden since baby came. (She is as good as she can be). Yours is the best medicine for women, and I have told about it and even written to my friends about it."—MRS. ANNE E. AYARS, Spring Valley, Sask.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system so that it may work every nerve as nature intends. All druggists sell this dependable medicine. Give it a trial.

Remarkable Story From Kenya

Native Chief Killed Leopard With His Bare Hands

From Kenya, where the Duke of York is hunting big game, comes a remarkable story of a native chief named Murgo, who fought and killed a leopard with his bare hands. He fired a shot which caused the leopard to drop and two of his followers rushed forward, but the bullet had only slightly grazed the head of the animal, which sprang upon the natives, Murgo was afraid to fire again lest he should wound his men. He seized the leopard by the throat, and dragging it from the two prostrate natives, he killed it with his hands after a fierce struggle, in which he was severely mauled.

Will Be Warmly Welcomed

South Africa Looking Forward to Visit of Prince

The Prince of Wales's visit to South Africa at the end of April is being looked forward to with great eagerness. Every part of the Union wishes to give him a big welcome and is clamoring for inclusion in the itinerary, the Dutch, being as eager as the English to know the arrangements in course of preparation. Engagements, however, are being made with the greatest care so as to ensure that the Prince is not subjected to the ceaseless round of social and sporting functions which somewhat detracted from the enjoyment of his visits elsewhere.

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Weland Avenue, St. Catharines, Ont., writes: "I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often fainting and bruisings myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine I just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had taken them for two months. I cannot praise, or recommend Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

New Mining Regulations

Coal Miners in Alberta to be Given Better Protection

New regulations will be made under the Mines Act by which coal miners in Alberta will be given better protection in respect to wages. This was one of the points brought up in a list of legislative requests by a delegation which waited upon the Provincial Government from the Alberta Federation of Labor. Amendments to the Mechanics' Lien Act were suggested, but the government undertook to put similar regulations into operation instead.

The delegation from the labor men comprised: Frank Wheatley, president; Fred White, M.L.A.; A. Farnito and E. E. Roper. A number of changes in existing laws and practices were requested in behalf of organized labor in the province, and in most cases the government promised to investigate.

Would Place Duty On Coal

Eastern Manufacturers Would Shut Out Coal From U.S.

Hamilton manufacturers have endorsed the idea that a duty should be placed on coal sufficient to keep U.S. mines from cutting into the Canadian market. Should that be done the manufacturers will, of course, add the increase in price of coal—if any—to the selling prices of their products and pass the tax along to the consumer. None the less, they are consistent in backing protection for others so they demand it for themselves. Alberta mines have not asked for a duty, but if the Ontario coal user is minded to put a wall between himself and the Pennsylvania mines they can scarcely be expected to object.—Edmonton Bulletin.

Kitchener Memorial Fund Growing

The sum of \$2,496.50 has been received on behalf of the Lord Kitchener Memorial Fund. Out of this, \$588.210 has been spent on scholarships and monuments in connection with a memorial chapel which is being built to commemorate the great soldier in St. Paul's Cathedral. The remainder has been invested.

The Woman's Medical College of Pennsylvania, the oldest regular college for women physicians, reaches its seventy-fifth anniversary this year.

Minard's Liniment for Sprains and Bruises

Canada's Wheat Crop

Lower Yield But Considerably Higher In Value

Canada's wheat crop for the year 1924 is finally estimated by the Dominion bureau of statistics at 262,097,000 bushels, valued at \$230,362,000, as against a crop of 474,199,000 bushels in 1923, valued at \$316,384,700. The three prairie provinces accounted for 235,694,000 bushels of the total production.

COLOR IT NEW WITH "DIAMOND" DYES

Beautiful home dyeing and finishing is guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether, the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Winter Is Topsy-Turvy

Northern Europe and Asia Have Been Experiencing Unusual Weather

Blossoms in Sweden and Norway and snow in the Mesopotamian desert have turned the winter topsy-turvy. There has not been a winter like it in 100 years. In Norway, the land of skis and sledges, the winter temperature has averaged between 34 and 35 degrees Fahrenheit. Similar winter warmth was last recorded in 1758. There is scarcely any snow. Only in the extreme north is there a good coverage.

While the almost spring-like weather prevails in the entire Scandinavian peninsula, as well as in the usually inclement sections of Germany, frost is reported from the Riviera, South German resorts are likewise frost-bitten, and in countries as far south as Arabia and Mesopotamia low temperatures have been recorded frequently.

Once More From Nova Scotia Comes a Tribute to Dodd's Kidney Pills

Joshua Smith, well-known ex-Postmaster, tells how Dodd's Kidney Pills relieved him.

Post Hood Island, N.S.—(Special).—"I used Dodd's Kidney Pills" (two years ago). I had poor circulation in my legs and feet. I used to have hot water tanks at night to keep my feet warm. I was able to do without them after using one box of Dodd's Kidney Pills.

I also had urinary trouble, but now I am quite well. My age is 50 years. This statement is made by Mr. J. Smith of this place.

Dodd's Kidney Pills simply heal sick kidneys. They relieve Mr. Smith because his ailments were symptoms of kidney diseases. When the kidneys get out of order they fail to strain the impurities out of the blood and general lassitude and weakness ensue. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease. If they are not removed Rheumatism, Lumbago, Gravel, Dropsy, Diabetes, or Bright's Disease may result.

Excavating Nero's Tomb

Excavation of the Emperor Nero's tomb has been ordered by the Italian Government. A thorough investigation of the site has been under contemplation for some time.

Success With Corn

By Jas. D. McGregor, Glenora, Stock Farm, Brandon, Manitoba, Part II.

There are a number of different methods used in the harvesting of corn. It mature or nearly so it may be pastured with any class of livestock, but more commonly with hogs, and this method is generally called hogging off. This type of mature corn may also be husked from the standing stalk and then the stalks are left in the field to clean up what is left. A simpler way to gather the grain is to use a mower and rake up, or with a blinder and then thresh through an ordinary grain separator. This gives you the grain and the stalks are shived and blown into a pile, which makes good rough feed. We have never tried this latter method of harvesting corn, but excellent results are reported from the Dakotas and Montana. The later maturing and larger stalked corns are generally cut with a blinder and then either stacked in the field or put directly into a silo.

For the purpose of hogging off we always use an early maturing flint corn, such as Golden Yellow and North Dakota White. Early maturity is very important for the good value and dry matter increases with the maturity. The earlier corn also has the advantage of giving a longer feeding period.

The question as to the number of hogs an acre of corn will carry cannot be answered definitely. This will depend upon the length of time the crop is available, the weight of the hogs and the quality of the crop. We generally figure on getting the hogs on the corn the latter part of August or the first of September and have them stay until the snow comes. If it happens that in early snow comes and covers up the corn before the hogs have cleaned up, whatever hogs are kept over will be right back at it as soon as the snow disappears in the spring. Ordinarily we figure on a feeding period of about 60 days.

Here of any weight may be used in hogging off corn, but best results are secured with hogs weighing from 70 to 125 pounds. With good mature corn a daily gain of from 1½ to 2½ pounds can be expected.

With an average crop we figure that an acre of corn will supply sufficient feed for about five pigs of the above weights for a 60-day period, providing that good pasture is available while on corn. Hogs should have access to a pasture where they can get green and mangle which the corn lacks. Alfalfa, sweet clover and rape are good for this purpose.

Hogs clean up a corn field very thoroughly. They eat practically all of the corn, and also a large part of the stalks. Whatever is left can be cleaned up by allowing the other stock into the field after the pigs are finished.

It is not at all necessary to confine the hogs on the corn by means of hog tight fences. Due to their taste of corn and you will have no trouble with them breaking into the other grain fields.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil affords a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Will Likely Agree To Canada's Wishes

British Government Sure to Amend British North American Act

Action of the Canadian Government to secure an amendment to the British North America Act to give Canada greater powers which the privy council has decided she does not possess, as in the case of the Toronto Hydro Electric dispute, is expected in legal circles in England to come about as soon as the Canadian Government has fully examined the position. This action will likely give rise to a long discussion regarding constitutional rights in which the whole question of the power of the dominions and provinces will be explored. There is a natural disposition now to regard Canada's wishes in the matter as paramount and to carry out her wishes in the matter.

In twenty-five years, according to estimates, the population of the United States will be 150,000,000.

When a rich man suddenly becomes poor or a poor man suddenly becomes rich, his true character crops out.

SUNDAY SCHOOL LESSON

FEBRUARY 23

GOOD CITIZENSHIP (TEMPERANCE LESSON)

Golden Text: Thou shall love thy neighbor as thyself. Romans 13:9. Lesson: Romans 12:1-4. Devotional Reading: Psalm 72:1-4.

The Text Explained and Illumined The Duty of Christians to Obey the Authority, verses 1-7. Writing to the Christians at Rome, Paul counsels every one to obey "the higher powers"—those in authority; the civil rulers—and then he lays down the principle that the fact of the authority's being established argues that it was ordained of God. Therefore he who defies the power is defying what has been instituted by God and shall be punished accordingly. "Be subject to every ordinance of man for the Lord's sake" (1 Pet. 2:13).

"Civil governments are no necessary part of them, and do not invalidate their divine character any more than the laws of marriage rob it of its sacredness. Any government is preferable to anarchy, just as power is enforced marriage laws are better than none. Man abuses all God's gifts" (Dr. Stiller).

Rulers are divinely ordained for the punishing of wrongdoers and the rewarding of well-doers. Only those who do evil need fear the authorities. To be free from fear of the powers that be, do good. "The Roman Empire at this time maintained law and order, protected life and property, and was, by Paul, himself a Roman citizen, believed very largely to have been a power, for the whole a beneficent power."

The Many-Purpose OIL.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. For cuts, bruises, burns, rheumatism, sore throat and chest. Horsemasters find it very useful in similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Message From Amazonian Jungles

Rice Expedition Operator Established Communication by Radio With English Operator

The expedition under Dr. Alexander Hamilton Rice, which is engaged in exploring the upper Amazon region, accidentally got in touch with the Royal Geographical Society of London, through an amateur radio operator, Gerald Marczus, of Catterham, Surrey, who, while communicating with American station, picked up Dr. Rice's wireless operator.

The latter asked Marczus to inform the Royal Geographical Society that the expedition had reached the junction of the Rio Negro and the Uruyacu on January 19. The progress of the party had been slow as the country was extremely difficult to traverse. They had been unable to use their hydroplane but had achieved the objects of the expedition and all were well.

Available maps do not show the river named on the dispatch from the Rice party, but from this and preceding advices it is indicated that they were somewhere near the Venezuelan border.

Slave Trade Rife In Indian State

Figures Just Published Show Thirteen Thousand Slave Owners in Nepal

There are 514,419 slaves and 13,719 slave owners in Nepal. Publication of these figures came as a startling surprise to the majority of the British people who have been, generally, unaware of the existence of slavery in this Indian state which, although independent, is under the aegis of the British Empire.

The Maharajah, Sri Chandra Shamsher Jung, prime minister and de facto ruler of Nepal, who also holds the rank of general in the British army, has undertaken to suppress the evil. In a speech at the capital, Kathmandu, in December, and only now reported in London, he appealed for assistance in this task from the people in general.

Pottery From Western Clay

Pottery made from Saskatchewan and Manitoba clay won first prize in the competition held under the auspices of the Canadian Handicraft Guild at Montreal recently. Among the competing exhibits were products from Great Britain, United States and Eastern Canada.

Museum Buys First Table Fork

The first English silver table fork, made in 1632, has been bought by the Victoria and Albert Museum, South Kensington. The fork is engraved with the crests of the Manners and Montague families.

Sweet and palatable, Mother Graves' Worm Expeller is acceptable to children, as it does its work surely and promptly.

Saskatchewan Lignite Coal

Production of Saskatchewan lignite coal in the Estevan area for 1924, according to a preliminary estimate, was 750,000 tons compared with 560,000 in 1923, an increase of 50 per cent.

For First Aid—Minard's Liniment

Mothers especially like it for children as it takes the place of internal medicines.

Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds

When Vicks VapoRUB, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat.

These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion. At the same time Vicks acts as a counter-irritant stimulating the skin, and thus helps the vapors inhaled to break up the inflammation.

Colds are usually relieved over night.

Britain Generous To France

Will Take Annual Payments Irrespective of France's Progress

John Bull is proclaimed a very generous fellow for the manner in which he has offered to treat France with reference to her debt.

The British note in brief declines to agree that France's payments should be dependent upon Germany's full payment of the Dawes' plan annuities; declares Great Britain is willing to accept fixed annual payments, irrespective of the Dawes proceeds with a further annual charge on the French share in those proceeds, and makes known that Great Britain will devote any surplus beyond the requirements of meeting her United States indebtedness to diminish the burdens upon her allies.

The London Evening Times, while approving the British offer, describes it as extraordinarily liberal; a splendid and generous sacrifice by a people suffering from an immense decrease in their accumulated wealth, from unparalleled taxation and grievous unemployment.

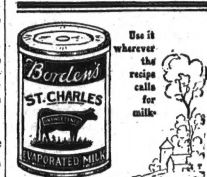

The worst feature about losing one's temper is that it refuses to stay lost.

Local and General Items

The Pythian Sisters will hold a whist drive in the Lodge Hall tomorrow night at 8 o'clock sharp.

A wife is a great comfort during all those troubles which a bachelor never has.

Walter Scott's left eye hit a hockey puck on Thursday night last. The puck has been black ever since.

Even cleanliness can be carried to extremes. Toronto paper has a heading "City Criminally Clean."

Mr. Harry Burns and Miss Smith returned Saturday morning last from a visit to Edmonton and Calgary.

William Schoof, brother of Major G. H. Schoof, of Claresholm, died in South Dakota on January the 27th.

Evan Morgan and P. M. Christophers, M.L.A., are representing Blaimore with the Pass delegation appealing to the provincial government for relief this week.

The annual sessions of the I.O.O.F. are being held this week in Medicine Hat. W. T. Patterson is representing the local lodge, while Mrs. Archer is delegate to the Rebekah Assembly.

Dr. Johnson hated the Scotch and once smilingly said: "The Scots eat oats which we give to horses." "That is true," said a Scot, "and the result is the finest men and the finest horses."

Our first real harbinger of spring appeared on Tuesday night in the form of a large flock of geese, evidently bound northward, that hovered about Blaimore all night and continued their course at daylight.

Mrs. Brewer opens her new tea parlor, the Tea Kettle Inn, on Saturday morning, and will serve light lunches during the day and special afternoon teas from 3 to 5. The new premises are located next door west of The Enterprise office.

Mr. Richardson, good roads and tourist commissioner, of Medicine Hat, hopes to make a trip through this district in the course of the next few weeks. The main purpose will be to help organize the tourist associations, etc., for the approaching season.

The Claresholm Review-Advertiser of last week announces: "Many signs point to an early spring. Gophers are out, the first wild geese and ducks have put in an appearance, marbles and kites have sprouted, and even the drinking water has taken on its usual spring flavor."

The Fernie Free Press last week remarked: "A number of representatives from the Blaimore and Coleman unions have been in town this week seeking information on how to keep their mines working when their markets are glutted by cheap eastern coal. They should ask Bill Sherman."

A public meeting was held by the miners in the opera house last night, at which the various phases of the labor tie-up were discussed. Quite a large percentage of the miners are voicing themselves as favorable to breaking away from the United Mine Workers of America and forming a Canadian Miners' Union.

The British Columbia Miners' Association are considering very seriously the purchase of the old Methodist church building at Fernie for a union hall and general meeting place. The property can be purchased for \$10,000 and a prominent citizen has offered \$1000 towards assisting the men in the purchase.

The funds of the Nelson Board of Trade have been reimbursed to the extent of \$500.00 by the district publicity committee, which has ceased to function, handing over the balance of their funds. This money will be used by the board to further the publicity campaign through the medium of road maps, etc.

The infant son of Mr. and Mrs. Thomas Williams died on Thursday of last week.

Twenty-three hotels in the Fernie district are applying for licenses to sell beer.

The regular fortnightly meeting of the town council will take place on Monday night next.

A meeting of the directors of the Sunburst Coal Company was held here this week.

The members of Vimy Chapter, Order of Eastern Star, will hold a whist drive in the Lodge Hall on the night of Wednesday next, February the 25th, to which all are welcome.

An investigation is being held into the death of a prisoner at Lethbridge jail. It seems that doctors ordered the man removed to hospital, but the man died while the fool system of red-tape was being gone through.

Rev. W. E. Galloway, who for some years has been field secretary of religious education in Alberta and British Columbia under the Methodist church, has resigned that position to go back to the pulpit.

Miss Katie McCrimmon, who recently succeeded Miss Evelyn Story as head of the C.G.I.T. work in the province of Alberta, paid a visit to Blaimore on Tuesday and that evening addressed a meeting of girls and women at the Union church.

Many Pass people will remember Chief White Elk, a half-breed Indian who a few years ago appeared here in connection with an Indian film-play. He is now in the toils over in Switzerland, where a number of charges of fraud are being preferred against him.

Mrs. C. O'Hendley, who for the past year has been visiting her mother and brother, Mr. A. F. McNeill, general superintendent of mines in Nova Scotia, is now the guest of Mr. and Mrs. Frank Cosgriff in Coleman. Mr. O'Hendley is on her way to Vancouver and is visiting friends along the line.

Alberta flour mills will receive direct benefit, it is expected, from the large order placed by the Russian government with Canadian mills for more than twelve million dollars' worth of flour. The order is to be filled by the Maple Leaf Milling Co., which has a mill at Medicine Hat, and by the Western Canada Flour Mills Co., with mills at Calgary and Edmonton.

The work of cribbing and piling along the banks of the river is progressing well under the superintendence of Mayor McLeod and Engineer Cunningham. It is confidently expected that the work will be sufficiently far advanced to ward off the possibility of damage by high water this spring. A gang of about twenty men are employed. These are replaced by a new gang every two weeks or so, to help out needy cases.

Half a million dollars would be a conservative estimate of the amount of money paid into the States treasury of the United Mine Workers of America by Canadian unions in the last ten years. Let someone now figure out just how much of that sum has ever come back into Canada, and how far the balance would have gone at the present time in the way of relief.

T. Folino, our local doctor of shoes, appeared before court on Wednesday, charged with "keeping a pig within the limits of the town," contrary to the requirements of the Health Act. He was fined \$5.00 and costs. We probably do not know all the circumstances of the case, but are informed that Folino had the hog delivered to him by a Foothills farmer and that the animal was butchered immediately for his own use.

A radio wig is now suggested to cover up the bob.

Coleman ladies' hockey team played at Lethbridge on Tuesday night.

WANTED — By a girl, general housework. Apply to The Enterprise.

Mrs. A. M. Elliott and daughter, of Calgary, are visiting with friends here.

The Sunburst Coal Company are this week shipping their first car of coal over their new spur line.

A general cut in salaries among employees is being effected by the provincial government.

Mrs. D. A. Siple, of the King Edward Hotel, Pincher Creek, was a visitor here last week end.

The Alberta Mine Rescue Car No. 1, in charge of Conductor Royle, is now spotted on the Blaimore siding.

Following the regular meeting of Greenhill Temple, Pythian Sisters, last night, the members indulged in a weiner feed.

Clifford Madden and Jack Welsh were up from Lundbreck on Sunday last to attend the funeral services of the late W. L. Oulmette at Coleman.

A bill is to be introduced in the Federal house, making provisions for some measure of reimbursement to the victims of the Home Bank disaster.

James McLean has resigned as keeper of the government liquor store at Fernie to take a position as coke-oven superintendent in that town.

Rosa C. Watson, former Seattle city detective, has returned to Canada to stand trial at Vancouver on the charge of implication in the Nanaimo bank robbery.

At the annual session of the Alberta Rebekah Assembly at Medicine Hat on Tuesday, Mrs. E. Foster Brown, wife of the efficient secretary-treasurer of the town of Macleod, was chosen president.

The marriage of Miss Marcelle Frances Bonne, daughter of Mr. and Mrs. Charles Bonne, of Bellevue, to Alfred, second son of Mr. and Mrs. Victor Welton, of Blaimore, was performed by Rev. W. T. Young on Saturday evening last. The young couple will reside in Blaimore.

Mr. J. E. McLeod, who for the past two or three years has held down the position of teller at the local branch of the Union Bank of Canada, is being transferred to the bank's branch at Strathmore, Alberta, and leaves for his new post early next week. Mr. McLeod has been a most capable and painstaking official and his place in the bank here and in curling and other activities will be difficult to fill.

In the first of the home-and-home play-off games between Bellevue and Coleman, to decide the winner of the first section of the Crow league, the teams played to a draw, 2-2, last night, before a good house at Bellevue. The game was refereed by W. W. Scott, of Blaimore, who had his hands more than full quelling the squabbles. The return game will be played at Coleman tomorrow night.

Mr. George Cruickshank is a business visitor to Eastern Canada.

God made the country, but in summer time the car in front makes you eat it.

A fifteen per cent reduction in tax rates is predicted for this year at Cranbrook.

Mrs. D. C. Drain underwent an operation for appendicitis at the local hospital last week end.

It happened in a British newspaper. The reporter wrote: "The Dundee clergyman was overflowing with Scotch wit." But the word "wit" was accidentally dropped.

Three stores were broken into at Coleman on Monday night and a considerable quantity of goods stolen, principally groceries. The police were promptly on the trail and in short time had two Belgians in custody. They appeared before court yesterday and were found guilty and both were sentenced to serve nine months in jail. Most of the stolen goods were recovered.

Annual Meeting

NOTICE is hereby given that the annual school meeting of the Blaimore School District No. 628 will be held on Friday, February 27th, 1925, at 8 p.m., in the Schoolhouse. All ratepayers are expected to attend.

J. R. GRESHAM,
Sec.-Treas., B. S. D. No. 628.

NOTICE

The Christian Community of Universal Brotherhood of Alberta, Limited, wish to state that they will not be responsible for any debts incurred by Aleck Selken and Nick Vergein, who were running our store in Blaimore. All business may be transacted care of head office, Cowley.

DATED at Cowley, Alberta, this 16th day of February, 1925.

The Christian Community of Universal Brotherhood of Alberta, Limited.
